Why does your level of vitality matter?

3 things you need to know about your vitality:

1. This graphic shows that people since 2020 don't reach their **top vitality** even when they are young.
2. Before 1960 our vitality drops below the '50% vitality line' at the age of 70-80, and then people began to suffer 'age related symptoms/diseases'.
3. Today people go below the '50% vitality line' from the age 40-45. **We all age much quicker!**

Don't want this, then work on your vitality today.

You're not sick or tired, you're lacking vitality!

In other words:

Don't focus on symptoms, but raise your 'vitality threshold > 50%', chances are high any discomfort just disappears & your vitality level increases.

Why are Forever Vital supplements complementary?

Certain (ancient) healing techniques no longer have the desired effect. The main reason is that these techniques 'originated' in a different world. Back then, we were not dealing with toxic chemicals & the intensity of man-made wireless internet to which we are now exposed 24/7.

The result of our 'polluted' living environment:

- A. Our body is no longer able to 'excrete' the amount of toxins: this 'body burden' is consuming a lot of energy
- B. As a result, the production of stem cells is jeopardized (see Digestive Strength flyer), reducing regeneration
- C. Thus our weakened system is more impacted by the 24/7 man-made radiation, causing inflammation in the lungs, intestines, and brain in people of all ages.

Forever Vitals specially for vitality issues of today:

- to assist your body in eliminating all sorts of toxins
- tackling directly inflammation in body & brain
- repairing cell damage & making 'strong' new cells

Cooperation: the law of synergy is harmony

To achieve your desired levels of vitality first 'repair the damage done'. Without this preparation practise taught us that many therapy forms lack the required 'information' (frequencies) to (re)activate the bodily functions. The better results are achieved when in close consultation with the Support Team. We invite you to find together with us constructive new vitality ways that are in harmony with our natural and biological body to support a well functioning clear and creative mind. Making us capable to face anything and live fully.
