DNA & RNA spray: extending life-span

Enhanced with supporting frequencies and BG3 Bio-signatures

2 major goals for extending life-span:

1 Repair DNA

2 Telomerase activation

External factors such as radiation and exposure to chemicals in the air, water and our food causes DNA damage and accelerate the shortening of telomeres, which are necessary for 'protection and the accurate transfer of information'. DNA-RNA spray promotes the supply of nucleotides in ionic form, which facilitates DNA repair & maintains 'the integrity' of the telomeres, which is essential for proper DNA repair. When these ingredients are consumed as part of your diet & pass through the digestive system, less than 10% is absorbed; with DNA RNA Spray, **90% is absorbed by your body!**

Through enhanced nucleotide supplementation:

- Tissue Regeneration
- Anti-Aging
- Sports Recovery
- ATP Production
- Endocrine Gland Repair
- HDL Cholesterol Levels
- Cellular Immunity
- Heart & Lung Function
- Muscle Performance
- Cardiac Strengthening
- Positive Neurologic Effects

Ingredients: Longevity Formula contains
DNA and RNA (nucleic acid) bases, TMG, Selenium, Glycine, ATP, L-Glutamine, L-Serine, L-Lysine, L-Proline, L-Aspartic Acid, Vitamins B1, B3, B5, B6, B12, and Folic Acid & mix SoLi Energising Oxy(SEO)

Intake adult (>12 yr):

3x daily 3 sprays directly under the tongue. Very user-friendly & handy for when you're on the go.

Immune Forte and DNA-RNA Spray have a more subtle effect on the vitality of body and mind. This contrasts with the powerful supplements from the Forever Vital theme packages. These two supplements are therefore ideal as a complement to any form of treatment, suitable as a maintenance dose and convenient whilst on holiday.
