

Bio-Atunement Family Rescue Package

Remote frequency support

The **Family rescue package** (we call **Bio-Atunement**) is a way to phase out on the level of frequencies any disharmony or unbalance in the body caused by unexpected and acute situations.

One simple example is:

You cut your finger seriously. You call the Support Team immediately, describe us what happened and after your call we sent harmonising frequencies to begin to phase out the cut (unbalance) so that the wound heals quicker and the pain reduces soon. You might feel within an hour already a difference. This is why the quicker you call the faster and better the results.

Because it is on distance, it doesn't matter where you are in the world. *(The frequencies can find you since we have a piece of DNA of you in the form of a nail, which we use to connect to the generator who send you one of the more than 65.000 frequency programs).*

Other acute things can be for example:

falls or sprains, injuries, bruises, accidents, wasp stings, diarrhoea, food poisoning, nausea, cold, high fever, stomach ache or earache, toothache, particularly in children, but also migraines or headaches, sudden breathing difficulties and so on.

Average treatment duration for acute things: 3 to 5 days

One day is available to one person or one pet at the time*

The Energy Exchange:

It's as if you're purchasing 10 Bio-Atunement days. This gives your family access to immediate BA support whenever it's needed in acute unexpected situations, wherever you are in the world.

The energy exchange (EE) amounts to € 125,- or €12,50 per day per person or pet excluding a one-off set-up fee of EE € 40,-. We charge the 10 days EE again after 8 days are 'used'. This is also the moment you can decide if you wish to continue with the family package rescue service.

How do I activate my rescue package remote frequency support?

As long as we pick-up the phone, you'll receive immediate assistance.

Very useful and convenient at the weekend, beside office hours, when travelling, or when medical assistance is limited or not quickly available, you and your family are assured of vitality support, wherever you are in the world.*

The Support Team is ready to assist you the moment you call us for frequency support.

Men and women of the

Support Team

- * The term 'family' refers to household members living at the same address, including pets such as dogs and cats. Naturally, this applies provided we have a nail in scotch tape from the family member or pet.
- * The rescue package is also used for people undergoing surgery to speed up wound healing, help the body to detox from anaesthesia and pain reduction. Thanks to the phasing out of unbalances, the wound heals more attractively, which is of significant cosmetic value. This is particularly true for children who are still growing, where a wound—for example on the face—could leave an unfortunate scar.
- * Some people use the rescue package to reduce the stress and strain of air travel, so that they can start enjoying their destination straight away or get back to work more quickly.
- * Of course, there are many other remote frequency support options available. Please ask your contact person for more information.
