TRAVEL RESTRICTIONS

This permit is only valid on Interstate highways.

70:03:01:47. Extended period permit -- Over 80,000 pounds on interstate permit. A permit-issuing authority may issue to an applicant an extended period permit which allows the operation on the interstate highway system of a vehicle which exceeds a gross weight of 80,000 pounds. The weight of the vehicle must conform to the tire, axle, and bridge weight requirements in SDCL 32-22-16, 32-22-16.1, and 32-22-21, and the vehicle combination may not exceed the length limits in SDCL 32-22-8.1. Except for a vehicle consisting of a straight truck or tractor-semitrailer combination, the vehicle may not exceed a speed of 65 miles per hour, including all enforcement tolerances.

70:03:01:14.01. Warning signs required for oversize movement

Unless exempted in another section in this chapter, 'OVERSIZE LOAD' warning signs must be displayed on all permit vehicles issued an oversize permit according to this chapter that exceed a length of 95 feet or a width of 12 feet or that will operate during nighttime hours. 'WIDE LOAD' or 'LONG LOAD' signs are allowed in place of 'OVERSIZE LOAD' signs. 'OVERSIZED LOAD' signs are allowed in place of 'OVERSIZE LOAD' signs. Signs must be covered or removed when they are not required according to this chapter.

One sign visible to oncoming traffic must be mounted on the front of the permit vehicle. One sign visible to traffic approaching from the rear must be mounted on the rear of the permit vehicle. Signs must be legible at 500 feet. Signs must be reflectorized when used for night moves. Signs must be a minimum of 18 inches high by 84 inches wide. The signs must be yellow with black letters. Letters on the sign at a minimum must be upper case, 10 inches high, with 1 and 3/8 inch brush strokes. The signs must be kept in good repair.
