

More Discs Seen By Tucsonians

Retired Lawyer, Officer Of Court Both Tell About Mystery

The mystery of the flying discs was becoming thicker and more local as reports come in from persons in various parts of the city who report having seen them.

Walter Laos, 723 East First street, states, "I have seen them every Sunday for the past four Sundays. I think they might be dropped from an airplane as every time I have spotted them has been shortly after an airplane has passed overhead."

Laos is specific in the description and estimates. Describing two he saw at 4:30 p. m. Sunday he said, "they were going at a speed of 200 miles an hour and flying between 5,000 and 6,000 feet high. They are round, white aluminum in color, and appear to be about five or six feet in diameter, and traveled northeast towards Sabino canyon."

Casteel Sees One

Miles (Mike) Casteel, head football coach at the University of Arizona, saw what he believed to be a flying disc while driving along east Speedway around 10 a. m. Sunday, he reported Monday.

"I saw this thing going south, and going fast," Casteel explains. "I stopped the car so I could get a better view but it disappeared in a hurry. If it had been a plane I could probably have followed its flight. This thing wavered along and disappeared quickly."

Retired Lawyer

Three were reported sighted over the city Sunday evening by Joseph Hendren, retired lawyer who lives at 521 North Warren avenue.

"At about 5 p.m. Sunday evening my wife and I were sitting on the patio watching the cloud formation. I suddenly saw what first
