## RED SAUCERS: *Soviets Curious*

Those flying disks were fun while they lasted, but by this time everybody has practically forgotten them.

Well, almost everybody.

Latest report having to do with the aerial chinaware is that Soviet agents in the United States have been ordered to solve the mystery of the disks. Presupposing the report to be true, it means, at least, that the saucers were not of Russian origin.

Soviet espionage agents here are said to have been advised that the Kremlin believes the flying saucers might have some connection with army experiments on methods of knocking out enemy radar.
