

Acheson Gives Rocket Views

American Advice Is Not Sought

WASHINGTON, Aug. 13. (AP)—Undersecretary of State Acheson said today he personally is very much interested in reports of rockets flying over Sweden but that the Swedes have not sought any American advice on the subject.

Unofficial but widely published speculation has been that the rockets were experimental missiles fired from Russian-controlled territory.

On another question involving the Soviets, Acheson declined at his news conference to confirm or deny reports that the Russians had asked Turkey to accept joint Soviet-Turkish "defense" of the Dardanelles. These reports were to the effect that Russia was seeking to exclude the United States from further participation in treaties controlling that important passage between the Mediterranean and the Black Sea.

Acheson said the state department was continuing to look into reports of the forcing down of American pilots by Yugoslavian fighter planes. A troublesome situation has been caused for some time, he said, by the fact that Yugoslav territory juts out on the direct air route between Vienna and Rome. All American flyers are instructed not to cross it, he said, but some may do so inadvertently.

Other points developed at the news conference included these:

Palestine—Acheson said the situation there is too explosive for public discussion now, and the state department is in constant communication with the British foreign office.

Korea—Acheson said the American people "share the Korean people's disappointment that negotiations for the implementation of the Moscow agreement have been temporarily suspended." He said American representatives "stand ready to resume these negotiations at any time on a basis safeguarding the essentials of the newfound Korean liberty."

Romania—The United States has protested and will continue to protest to the Romanian government the arrest of two employees of American missions at Bucharest. The two are being held incommunicado on espionage charges.

Albania—Acheson said he "understood" that Albanian authorities were opening all parcels entering the country from abroad and "confiscating" whatever currency they found.

China—The undersecretary said he believes Gen. George C. Marshall, President Truman's special peacekeeper representative in China, has no intention whatever of returning to the United States now.

Ships Are Safe On High Seas

LONDON, Aug. 13. (AP)—Britain will confiscate all unauthorized immigrant ships caught in Palestinian waters but will not seize any vessels on the high seas, government officials said today.

The colonial office and the admiralty outlined present plans for dealing with the elusive little ships running Zion-seeking European Jews across the Mediterranean after the Communist Daily Worker asserted that action against shipping on the high seas would be "piracy."

An admiralty spokesman said the navy, intended only to "spot and shadow" the immigrant ships into the Holy Land's territorial waters "where it is legal for British forces to board and search any craft."

SUSPEND CEILINGS
WASHINGTON, Aug. 13. (AP)—OPA today announced suspension until August 21 of price ceilings on cottonseed and soybean oils sold for use in paints and other inedible products.

BUYS GARSSON'S

James Stein, president of Metalplast, Inc., of New York has bought Batavia Metal Products, Inc., Chicago, from Dr. Henry Garsson. The Batavia firm is part of the midwest munitions empire now under senate investigation. Associated with Stein in the deal was Herman Starr, head of the Diamond Production Co., New York.

Foreign Service To Be Expanded

WASHINGTON, Aug. 13. (AP)—President Truman today signed a bill expanding and strengthening the foreign service and expressed belief it will "make our efforts to win the peace much more effective."

"While we strive to reach international agreement on the large and confused issues," Mr. Truman said in a statement, "we can make progress by trying to perfect those instruments of international relations which lie in our power to improve."

He said it was significant that the measure came to him at a time when the labors of Secretary of State Byrnes at the Paris peace conference "are demonstrating how great a stake the United States has in world affairs."

"This administration is doing everything possible to back up our participation in the United Nations and its ancillary organizations and in the international bank and the international monetary fund," the president said. "This foreign service legislation is consistent with all our efforts in this field."

The bill, the president said, creates a "new model" service to replace the "outmoded plan laid down in 1924."

"One of the basic reforms is a revision of the salary structure so that a man without independent means can serve his country as an ambassador or minister or in any foreign service position as effectively as a wealthy man," the president said.

"At the same time that the bill improves compensation it subjects the service to more rigid requirements in regard to promotion and training; it seeks to keep our diplomats and consuls from losing touch with American life and thought by providing more frequent and varied assignments in this country; and it tries to make the service truly representative of the whole government and people by making it possible for the best qualified men and women in the country, in or out of the government, to have tours of duty with the foreign service in any of its ranks."

Alien Case Is Delayed

LOS ANGELES, Aug. 13. (AP)—Deportation proceedings against Mrs. William N. Patterson, jr., wife of an American citizen who was cited for heroism as a guerrilla in the Philippines, have been postponed until May 2, 1947.

Philippines-born Mrs. Luz Patterson said she told immigration officials she expects a child next March and that they thereupon informed her proceedings would be delayed until next year.

Earlier Patterson announced the immigration service had ruled his

Campbell Soup Strike Averted

WASHINGTON, Aug. 13. (AP)—A threatened strike which might have caused the loss of a \$5,000,000 New Jersey-Pennsylvania tomato crop was averted early today when CIO union and Campbell Soup company officials accepted a government conciliation service compromise.

wife and their two children, Elizabeth, 8, and George, 7, were aliens, since they were born in the islands. A third child, William, 3, born under wartime regulations, is listed as American.

Strike Closes Stetson Plant

PHILADELPHIA, Aug. 13. (AP)—The John B. Stetson company plant in Philadelphia is closed today—but firm officials and AFL union spokesmen insist they do not

know why the 2500 employees refuse to work.

The employees, members of local 60 United Hat, Cap and Millinery workers (AFL), walked off the job yesterday.

Arthur A. Foster, local union president, said the work stoppage is "a complete surprise to me." C. V. Molesworth, assistant to the president of the firm, said "I don't know what the trouble is."
