Churchill Port Booms Rocket Kills

Cargo Off To England

CHURCHILL, Man., Aug. 14 (Special)—The steamer Mount Revelstoke Park Wednesday was churning its way across Hudson Bay headed for England with a cargo of western Canada grain and lumber. It is the first cargo to leave this port since the start of the war. But, it is the forerunner of several ships to leave here this year. It is expected that the ships under charter will clean out the big elevator

Rumor is almost as rampant in Churchill as it was in the army during the war but up here you hear that the big elevator will be filled up before the season closes and enough grain stored to insure

a busy season next year.

The harbor was even busier Tuesday than on Monday with another ship, the Essex Trader, arriving early Wednesday morning and pulling up along side the other two already in port.

copie failed to make port. It is now be loaded on the Nascopie.
Uneventful Trips

The three ships now here had uneventful trips from England but the captains differ somewhat on the value of the port for the shipment of grain from western Can-ada. All agreed that the Hudson strait was full of icebergs and one of the captains said they were really big ones.

The ships stood by during the

Liberal Development Of Co-Ops Recalled

The federal proposals for taxng co-ops were based on findings of the royal commission and on some of the budget provisions. The commission had been unanimous in making such recommendations to the government, Mr. Gardiner pointed out.

B. N. Arnason, present deputy minister of co-operatives in the Saskatchewan government, had been a member of that commission. He had recommended some of the provisions now being opalthough bishops of opposite color posed by C.C.F. members. Mr. Arnason had received his training in co-operatives' administration under the former Saskatche-

companied by a guide. He also had shot here in some time. a magazine writer and photographer along to record the feat. Bill was not looking for a press story as the magazine man had gone along with the hope that he would do the harpooning and the shooting himself.

A Poor Man With A Harpoon In telling his story about his feat after the whale had been pulled up on the shore, Mr. Scraba said he was a poor man with a harpoon as he missed the whale's body and caught him in the tail. This did not stun him and, for a while, the trio in the boat thought he had got away.

They finally spied the tin buoy which is at the end of the fifty foot harpoon rope. The canoe was manoeuvered into position, and
