## £50m. On Rocket Range?

LONDON, June 27 (Spec-  
ial). — Fifty million  
pounds will be spent on the  
Empire rocket range in Cen-  
tral Australia instead of the  
£12 million originally esti-  
mated, says the Sunday  
Empire News.

The range will be extended  
from 2000 miles to 4000 miles.

The Sunday Empire News  
says the chief scientist to the  
Supply Ministry (Sir Ben  
Lockspeiser) who has returned  
from Australia is expected to  
make a statement this week  
on the "most important scientific  
conference ever held."

The Australian Supply and  
Development Minister (Sen-  
ator Armstrong) will be in Lon-  
don to-morrow to discuss rocket  
range plans.

### Empire Base

The Sunday Empire News  
says Senator Armstrong states  
Australia is prepared to meet  
a large part of the £50 million  
cost in return for industries  
which will be founded to ex-  
ploit the experimental work.

The first guided missiles  
from the range will be aimed  
at the sea until strict accuracy  
is achieved.

"These latest decisions  
mean Australia is named as  
the battle headquarters of  
the Empire defence plan,"  
says the paper.

"Canada, New Zealand, Aus-  
tralia, and Britain now have  
plans for security in a push-  
button war."

"Washington has been in-  
formed and simultaneously  
has received a hint that Britain  
will agree to accept the entire  
responsibility for the develop-  
ment of guided missiles while  
America concentrates on atomic  
explosives."

## D MAY STARVE'

27 (Special).—The grim danger of  
starvation was possible even in "our own  
back yard," Attorney General (Sir Hartley

Mr. Churchill said the  
conservatives would support  
the Labour Government in  
the stand which, with all  
their devotion to the cause  
of peace, they felt bound to  
make.

"It is our duty to show,  
whatever our party differences  
may be, that in resistance to foreign tyranny we  
are a united nation," he continued.

"I still believe that by this  
means peace may be preserved."

### Govt. Criticised

### Over Red Threat

MR CHURCHILL criticising  
the Government's action  
over Burma and Malaya, said  
● "Burma is descending  
rapidly into a welter of  
murder and anarchy, the  
only outcome of which will  
probably be a communist  
republic."

This would give a dangerous  
strategic advantage to Russia  
in this important part of  
the world which is on one of  
Britain's searoads to Australia  
and New Zealand.

● "In Malaya, the long  
arm of communism, un-  
checked by a feeble British  
administration, has begun a  
campaign of murder as part  
of the general process of  
Britain's ejection."

### Ajax Sale Hits

### National Dignity

MR CHURCHILL said it did  
not matter where they looked  
in the world they would see  
how grievously Britain's name  
and prestige had fallen "since  
the British nation fell flat on  
its face in the moment of its  
greatest victory."

Criticising the proposed sale  
of the cruiser Ajax to Chile  
Mr. Churchill said:

"I did not think we had  
sunk so low as to have to  
market our national naval  
dignity in so squalid a  
fashion."

## Russian Leader Arrested By U.S.

BERLIN, June 27 (A.A.P.)—  
American military police to-  
day arrested the Soviet Military

from which no flowers or  
vegetables survived, left  
rather a big gap to fill in  
the show schedule.

Being practical themselves  
Norwell and Mr. Menkens  
found a solution.

### Slate Pencil Section

So now Norwell children  
instead of entering their  
choices can exhibit  
their best shined penny. Instead  
of showing their best cabbage  
they can enter for  
the "best sharpened slate  
pencil" section. These two  
sections are open to the  
smaller children only.

If they are fortunate  
enough to have an outsize  
layer, they may win six-  
pence for the heaviest egg.

Schoolgirls are catered for  
in the "best patch" and  
"best darned sock" sections.  
These are all in addition to  
the normal but less spectacular  
show sections.

"The sixpence prize  
money may seem small,  
but this is only a small  
community," says Mr. Men-  
kens. "It is the honour of  
winning that is to be most  
sought."

## ATTLEE REDS FO

LONDON, June 27 (A.A.P.)—  
where, communists  
the Prime Minister (Mr.  
Attlee) and  
farm labourers at Skegness

Mr. Attlee was referring  
to the London dockers  
strike.

"The dock strike was causing  
Britain a loss she could not  
afford," he added.

Between 4000 and 5000 strikin-  
g dockers with less than 20 dis-  
sentients to-day voted con-  
fidence in the unofficial strike  
committee.

Troops were not working at  
the docks yesterday but 1600  
Lifeguards were undergoing in-  
struction in tally clerking in  
case other troops are drafted  
to the docks to-morrow to move  
large quantities of meat in  
refrigerated ships.

Some London housewives  
get only 3d. worth of fresh  
meat and 9d. worth of corned  
beef this week because of  
hold-up in supplies caused by  
the strike.

Mr. Attlee urged a greater  
effort on the land and said  
that agriculture was Britain's  
greatest dollar saver.
