Head of motion graphics at an entertainment creative agency. I oversaw the graphics team producing varied work including TVCs, film trailers, online video, cinema and outdoor. Working in conjunction with my creative director, a junior motion graphics artist, freelancers, and an editor, I created work from storyboard phase through to delivery, including preparing TVCs for broadcast.

August 2010 - August 2011: **Freelance**

October 2009 - April 2010: **Mocha Productions, Liverpool**

Various motion graphics for branding, film, music and corporate video.

About

Born in Bath, brought up in Kendal. Spent 10 years in London and now in Derbyshire.

Pro in After Effects and associated plugins and scripts, Cinema 4D and it's plugins, and am fairly proficient in Premiere, Photoshop and Illustrator, assisting me with my motion work.

Give me a shout if you need some freelance help. I can come in at an early stage to design and storyboard, or later in the process to bring some motioney goodness to that lovely creative you've worked up.
