

Introducing the Tower Garden® Grow Light!

The Tower Garden® T5 Grow Light package allows you to grow leafy greens and herbs indoors all year round.

What's Included?

- Four 54W High Output T5 Grow Lights, with reflectors to improve efficiency
- Power strip with built in Timer
- Hardware to attach lights to Tower Garden Tomato Cage (required for use; NOT included)

Advantages of T5 Fluorescent Lights

- Uses less energy to produce more light than other fluorescent and metal halide options
- Low energy costs - will cost about \$10 per month to run 13 hours per day, based on national energy averages
- T5 light are rated at 20,000 hours, with high performance throughout the bulb life
- Low heat allows you to place bulbs very close to plants, resulting in higher yields
- Designed to produce lush, compact vegetative plant growth
