

How many rides/trips?

Driver/caseworker takes van to pick up 6 clients in the rural areas for the day program. After everyone is checked in the driver loads Bob, Jim, and Jane, clients, in the mini-van and takes Bob and Jim to job sites and Jane to a doctor's appointment. The driver waits with Jane at the doctor's office then the two of them go to the grocery store where Bob works and pick up some snacks and cake for a birthday party to be held later that day. They head back to the day program. Later that afternoon, the driver picks up Bob and Jim and they return to the day program in time for the party. Another caseworker calls asking for a ride back to the day center with her client. Her car isn't starting. The driver picks them up and takes them back to the day center. At the end of the day, the driver takes 6 clients back home.

Driver at senior center delivers meals to home bound seniors while also picking up other seniors to go back to the center for the congregate luncheon. He delivers 6 meals and picks up 5 seniors before heading back to the center. After the lunch, he takes three women to the Walmart and one man to the Walgreens. He waits at Walgreens. Once the man is back on board, he heads to the Frys to pick up supplies for the senior center. His passenger comes in with him and picks up a few things himself. When finished, they head to WalMart, both he and his passenger go in. While the driver hunts down the women, the man grabs a couple of things and meets them at the checkout. They head back to the Senior Center. The driver then takes 6 passengers home.
