

Leni Morrison - Quantum Shaman in the Age of Ascension

Who is Leni Morrison?

Leni is a Quantum Shaman, Spiritual Life Coach, Vibrational Energy Channel, Musician & Meditation Guide based in Dublin, Ireland.

Growing up around my family's healing sanctuary 'Tuan' in County Wexford, Ireland, it was natural for me to explore and develop my angelic intuition and my emerging channelling abilities. Throughout my young life, I had many visitations from the Divine, Galactic & Elemental Kingdoms.

I developed further as a channel while living in a spiritual community in Brazil in my early twenties. It was here that I had deeply profound spiritual awakenings such as psychic surgeries, first contact with UFO'S, witnessing miracles, shapeshifting & experiencing my own multi-dimensional aspects.

During that period, my Kundalini energy opened up powerfully and then my world once again changed forever. In a life-changing transmission a powerful Being from the Sophia Dragon Tribe spoke through me in light language, removing lower vibrational galactic implants from several members in the meditation group. After this experience, I was guided to work closely with Mary Magdalene, Isis, Yeshua, as well as many other members of the Sophia Dragon Tribe, namely Mother Mary and Quan Yin as my Ascended Master Mentors.

I later became a Vibrational Energy Practitioner in 2003 and received a Tera-Mai Culminate Degree into the Golden Elemental Earth Healing Energy and have since become initiated into the Violet Flame Attunements of the Sacred Goddess; Quan Yin (under the mentorship of spiritual author, healer and trainer Kim

Wuirich in AB, Canada) and the teachings and daily application of the lessons of Jeshua in A Course In Miracles. I also have a certified Higher Degree in Spiritual Life Coaching from the Awakened Academy based in Hawaii and Sedona, Arizona.

I've been immersed in service to others as both an energy alchemist & teacher for over 20 years and have been intensively meditating for the purpose of anchoring Spiritual, Galactic & Divine energies on Mother Earth through my Higher guidance.

My hope is that my clients transcend their own lives spectacularly and open up to the art of multidimensional possibilities and connections otherwise unexplored! After a session most clients say they experience amplified life-force energy as they've literally shed lifetimes of psychic trauma/debris/contracts/denser frequencies and as such feel FULLY renewed. Once a person remembers that they are in fact a soul and that they have a unique purpose they literally soar into the Higher dimensions of consciousness with their newly awakened High Heart.

Leni and The Age of Ascension

The Age of Ascension is upon us NOW! and so it is time for each soul to awaken their god/goddess aspects within - and that is simply through self-love and self-honouring - which means doing their inner-work, breaking down the old false belief programmes, upgrading their DNA - (which I will be teaching in a webinar series starting on June 1) meditation practice and through sending love out to the planet and humanity. Gaia herself is ascending now. Mother Earth is already in the New Earth and we must join her and this means we must first and foremost start loving ourselves unconditionally and loving our brothers and sisters all over the planet - it is about UNITY CONSCIOUSNESS - no more walls, barriers, differences or separations. The Patriarchal Age is over - now it is about all of your Divine aspects, your multidimensionality; Galactic Christed beingness; your Angelic aspects etc. all coming into ONE! organically NOW! and in UNITY on Mother Earth for the greater good of all.

Leni - Wayshower & Grid Keeper

A Wayshower is a soul who is part of the first 'wave' of bringers of the Cosmic/Galactic/Universal/Monadic etc. information to earth. We lead the way of the Ascension process by being in touch with the Masters, the Galactic Federations, the Councils of Light either through getting what we call 'downloads' of information, through Channeling or through receiving Light Language. There are so many ways to access this information once your heart is pure and you are a conscious co-creator!

A Grid Keeper is a light-worker-soul who is guided through their Higher-Embodied Self to work on the grids/gateways of the earth and along Gaia's ley lines and chakra system. The Grid Keepers hold ceremonies, and place healing crystals along the crystalline grids of Mother Earth to release dark lower frequencies, to collapse old time lines, assist in Quantum Jumping and anchor in higher vibrational Crystalline New Earth 5D+ energies. We usually work with the Ascended Master Collective, the Higher Beings of Christ Consciousness, The Galactic Federation, the Councils of Light, the ancestors of the sacred earth as well as the elementals and the Arch Angelic guidance we receive. Many more awakeners are coming online with this movement as the Freedom codes are being released from the Akashic records of Gaia.

The Current Energy Cycle & the Need for Healing

The planet is NOW going through a complete energy reset! The collective goal in this Age of Golden Race DNA awakening is to release lower vibrational energies and to therefore, purify and transmute denser karmic cycles, planetary Karma, soul family and monadic family patterns and heal ourselves as a collective. Mass awakenings were set out to be triggered at THIS time - just look at the Mayan calendar! and as such, many in the collective are finally 'waking up' from their spiritual slumber! so the question is:

Are YOU ready to heal yourself and to LOVE YOURSELF for the first time in your awakened life?

Many of the people I have worked with have suffered from some of the following:

- Abuse
- Addictions
- Anxiety
- Auto-immune/Digestive Problems
- Depression
- Hyper-Sensitivity
- Trauma

These symptoms normally serve a Higher purpose. Many people have specifically incarnated to clear these karmic energies for themselves, for the planet and for their soul family lineage.

Leni's Mission:

I have always loved sharing my knowledge and experience with other heart-centred people who want to be cleared of their unconscious programming and connect with their Higher Selves so we can heal the collective and therefore heal Mother Earth.

I do this through three different avenues:

1. 1-1 Healing Sessions
2. Bi-Weekly Meditations
3. Online Teaching

1. Leni's 1-1 Healing Sessions

When I open up the channel to work with somebody I bring with me 18 spiritual guides who deliver powerful insights into the client's multi-dimensional facets. The work is non-linear so often the messages come through from all directions of time simultaneously and the issues that need to heal come to me immediately. I can 'feel' the whole body of my client, and identify physical pains and energy blockages in their chakras. In the sessions I also connect to a family member of theirs/their spiritual guides who come through to help with the session.

I can “scan” your physical, emotional, spiritual, ancestral, astral, karmic and discarnate spirits energies. From doing this, I will normally be guided to what needs to be healed the most. For some this could be lower ancestral energies. For others it could be physical pains/energy blockages in their systems linked to past traumas/emotional hurt. Equally, some may have vows or curses affecting them or their lineage which need to be cleared.

The work between me and my client is always co-creative and always involves working with the help of both our spiritual teams. Success often depends on how open minded and hearted the client is.

To deliver the healing I first relax my client through a set of breathing techniques and sometimes mantras.

In the case of emotional pain we often need to peel back through the layers of unconscious programming/stories we have been repeating to ourselves and correct them. In the case of clearing ancestral karma/curses we use prayers and invocations - and I normally put my clients into a meditative/trance state in order to identify what contracts/chords need to be cut with their ancestors. Often these chords/contracts can have physical symptoms today such as body part pains or blocked chakras.

Once my clients have undergone healing with me, I then assist in guiding their mental and energy bodies to prepare for ascension through “galactic activations”. For starseeds, i.e. those from another planet, you will often have a different energy body, and you specifically benefit from the work of galactic and DNA activations.

This type of energy work involves the transmission of light languages which come through my hands and my voice - and carrying energy healing messages.

These energy transmissions activate and empower your chakra centres as well as the vortices of light codes within your crystalline light body.

You will KNOW immediately by the sensations you experience as they will have struck the harmonic chord within you. The light of

love and peace within you will illuminate. Expect to feel incredible, bursting with optimism, and have a lighter approach to life. This enhances your ability to contact your Higher Dimensional Selves, your Galactic and Spirit Families, your spirit guides as well as your galactic ancestors.

Having this galactic contact also increases your ability to heal yourself, strengthens all the "CLAIRS", your telepathic abilities, your meditation practice, your channeling gifts, your healing abilities as a practitioner, your psychic abilities and your ability to jump quantum time lines.

Finally, I offer my clients more practical "spiritual counselling" whenever they need it. In the past this has involved helping people overcome addictions, self-love, relationships, depression, unearthing your soul purpose, navigating spiritual breakthroughs and manifesting life goals. Many light workers like myself have gone through a lot of these traumatic issues ourselves.

Pricing & Scheduling:

For this first session we will work on the most pressing areas of your 'life picture' - i.e. energy blockages, physical/emotional pain etc. After this session, the number of follow on sessions depends on the unique blue-print of each client - so we are always guided by spirit as how best to move forward!

The cost for these healing sessions are €90 for 60 minutes.

You can purchase sessions via my website page www.lenimorrison.com by clicking on the "Send a Payment" button.

2. Leni's Bi-Weekly Meditations

Every second Wednesday at 8pm (GMT+1) Leni hosts an intercontinental ascension meditation - currently through Zoom. These are powerful transmissions of light and DNA upgrades,

invocations, lessons, prayers and ceremonies. Leni does a lot of preparation and adapts according to the collective energies of the group, planetary energy/cycles and what her channelings from the ascended masters and archangels guide her to do. The energetic exchange from these sessions can last with the group for many days after, enhancing their ascension process, inner peace, inner transformation, joy and pure bliss!

These transmissions/meditations cost between 15-20 euro per hour depending on the love donation you can afford.

Our group members report feeling a higher state of love and peace for days after each meditation. We welcome first timers/new members to the group to try for just €5.

You can find our ascension group on Meetup here - <https://www.meetup.com/meetup-group-RlwSGzel/>

I felt so comfortable with you. You have taken my spirituality to a different level. Since our session I was feeling peaceful. My usual prayers and practices seem meaningless now. I have seen other shamans but you are so different. Something has definitely shifted! Everything I have heard you say resonates with me. I am so grateful to have met you! Sending lots of love!"

Laura McManus, North Carolina

"I have been attending Leni's weekly channelling/meditation guiding sessions regularly for a good while. Who she truly is and what she does for us....so kindly, happily, selflessly facilitating these sessions, are simply beyond mere words. Still, I would like to say that Leni is a very pure channel, a powerful healer...a wise, highly evolved, beautiful, magnificent soul. She has done immense inner work herself, and has come a long, long way on her soul journey to be where she is now....to be able to be spiritually serving, healing and guiding all who are guided to come to her. (Undoubtedly, it has not been easy. Indeed, it has been extremely challenging...a gross understatement.) Yes, she is all that and so much more even! And yet at the same time, she is ever so present, centred, grounded, warm, welcoming, accepting, loving, fun-loving and humorous. In other words, a very beautiful, eternal, soul embodied as a loving, caring human

person. An extremely brave, courageous, soul who has volunteered to be incarnated here and now to help us all. One who is intensely dedicated and committed to help us all on our soul journey Home. A brightly shining and uniquely beautiful personification of the Divine Feminine Goddess energies in our midst! Depending on the Divine guidance she receives at the beginning of each session, she channels individually and collectively, Archangels, Ascended Masters, our Star Brother and Sisters and Higher Beings of Divine Light and Love, all of whom are here to help us on our Ascension journey. Regardless of the various weekly themes chosen for each session, Leni has always guided me to enter a deep, safe, sacred and loving space within myself, where I remember who I truly am and awaken to my Divine essence. I inevitably experience deep, profound spiritual healing and soul connection with the Divine....a deep inner knowing/ feeling beyond words. I am indeed blessed and grateful to have met her!"

Tsze Chien, Singapore

"It is an absolute delight to work with Leni, who leaves no stone unturned, & engaged so many aspects of my being. I felt Leni had finally got to the bottom of some of my long standing health issues in a way no-one else had been able to. Leni could go to the depths of my being and clear that, which I was blind to. As a health professional myself it's a godsend to have someone else you can trust, that works with such diligence & tenacity while also giving you a different perspective. One you that you are unable to see for yourself, empowering you to find your own path to healing a crisis. At the time I first met Leni, I was utterly depleted & struggling with energy to recover from a major surgery & subsequent breakdown in my health. Her sessions restored my confidence to heal again. To get me back 'on track' so I could heal beyond what I thought was possible. It was such a gift too that this happened prior to 2020. Knowing there were many changes to come, this healing had me be so much better prepared. Finding Leni in my life was like water in the desert and I felt completely supported in the process. Namaste"

Carolyn Rae, New Zealand

She is extremely kind and gentle with the work that she does. I highly recommend her service! It will be life-changing! Book a session NOW!!"

Catherine Ould, LMT, Certified Reiki Master and Reflexology Practitioner in NC, USA

"A meeting with Leni will change your life forever. For 2+ years I had been suffering deeply with chronic fatigue, digestive issues and low motivation. In one of our sessions, Leni instantaneously communicated with her guides/team to inform me that the root cause of my issues was mercury in my system and that I needed a detox i.e. she found out in a few mins what I didn't know for years. That was only the beginning. We did incredible ancestral healing work, where Leni was able to connect to many of my ancestors - without her knowing any of them, and clear past wounds which were affecting my solar plexus and other body parts. This involved getting rid of a family curse affecting my father line and going back in time to heal a tragic death on my mother's line - together. My biggest takeaway from Leni was that things which happen in previous lifetimes and DNA memories can hugely impact our health today. On top of all of that clearing, she has helped me as a loving spiritual coach/mentor, aiding with goal manifestation, raising my vibration, activating my DNA to move from 3D to 5D and answering any worries I had. I can't thank her enough. I will always be in debt to her. What I say to people is go try her for one session and you will never be the same!"
