

Fight On!

Compiled index +4

The first four Fight On! fanzines that were published from 2008 through 2009 are now available as a compilation. The following pages of indexed content have been created as a tribute to the brilliant minds that came together to create this fantastic resource for old-school gamers. Hopefully, this alternate presentation of new monsters, treasure, spells, and reference tables will further encourage it's inclusion in future game content.

Some notes about the lists and inclusion criteria:

The page numbers in the new book still appear as they did in the original zines. Because of this, a way to differentiate between page 6 in issue 1 and page 6 in issue 3 had to be implemented. In the following lists, notation of page numbers will be displayed as i1-p6 and i3-p6, respectively. The letter i indicates issue and the letter p denotes page.

Throughout the original publications there were instances of common fantasy and science-fiction monsters such as goblins, skeletons, and bandits. Statistics for those creatures can be gotten from other bestiary collections produced by numerous RPG publishers. In the next few pages, only new and distinct creations which are mostly exclusive to Fight On! have been harvested.

Also, there were many uniquely named Non-Player Characters and monsters listed in the zines and at times it was difficult to differentiate the greater from the lesser of their kinds. In the end, only MONSTERS with proper names have been included with the rest of the new monster types. Those monsters' names will appear in *italics*.

Careful examination of the entire text has yielded these results. With that in mind, be aware that sought after entries may or may not be somewhat buried in the text of a particular page with no bold face or italics to make them stand out. That being said, some potentially magnificent ideas were omitted from these indices because not enough information was present. For instance, perhaps an item did not have a name more distinctive than *Spear +1* or maybe a monsters stats or abilities were implied but not clearly defined.

Thanks, and enjoy the compiled index +4 of *Fight On!*

-Brian Wiles, Devoted Fan

Monsters

- Adamantine Automatons
 - Assassin..... i4-p115
 - Guardian..... i4-p115
