Mary's Mission is a behavioral health facility that provides therapeutic treatment to children ages 11-17 who are mentally, developmentally and behaviorally disabled. Transportation is provided to residents for schooling, medical appointments, counseling, employment and recreational activities. Mary's Mission Outpatient Clinic is located in Mesa, AZ and provides a variety of counseling services, DUI screening, education and treatment, supervised visitation and peer support to people of all ages.

Regular and ancillary support services provide transportation to Buena High School, Berean Academy, Carmichael Elementary, Joyce Clark Middle School, PPEP Tech High School and Cochise College. Transportation to each school is provided at least twice a day, five days a week during the school year, and occasionally in the summer. Some medical appointments, outings and client transportation take us as far as Tucson, Phoenix, the Yuma area, and Native American Nations across the State of Arizona and New Mexico. Recreational outings include taking residents to Bisbee, Tombstone and Phoenix, mostly during summer months and school breaks and holidays. Occasionally recreational outings are provided during the weekends. We provide transportation to and from placement agencies throughout AZ and NM. There are no fees associated with the transportation to residents and family. Mary's Mission continues to work closely with the local Dream Center, various sports organizations, and other agencies from the Sierra Vista and Mesa areas to help serve their transportation needs, too.

Staffs from Mary's Mission have been regular participants in the Cochise County transit meetings. Discussions and actions regarding cost saving measures, coordination of services and means to better serve all clients and the general community to prove invaluable to our non-profit agency.

### Identified unmet needs include:

- 12 passenger van to accommodate resident and family transports to our Outpatient Clinic in Mesa, and court hearings in Maricopa and Pima County.
