Good evening Minister

I hope that my email finds everyone well in Tynwald.

I suspect that my email will be as welcome “as a hole in the head!” but sadly it needs sending.

Just to provide a context. I have had the pleasure to know and work with Courtenay Heading since the Minister of DED at the time created the Manx Biodmed initiative. For various reasons, I became involved and acted as the Secretary to help because some officers did not understand what was being said in terms of the minutes!

It is a pleasure to still know Courtenay as I believe that we both have “a sense of fair play” and a mutual respect for this Island.

However and there is always a however.

I have listened to Courtenay last week and supported him at a Tynwald Committee last Friday. Courtenay tells me that Statins and Vaccines are not good for us. So from a simple banking background when it comes to “whistle-blowing” why does no-one argue against him? Courtenay makes a really well balanced case and yet no-one in Health will speak against him and provide the argument.

Personally I think it is a disgrace that Courtenay has not been challenged. I simply want the truth. Our daughter was given the HPV vaccine with “enforced consent” looking back and a flu jab in 2011 put me out of action for a couple of weeks.

I only want honesty Minister. Will someone in Health tell my friend that he is totally wrong and if not why not. After the Committee Meeting on last Friday which was recorded properly on Hansard, I do feel like “a dog with a bone.” Something to me feels incorrect and I cannot ignore this fact.

Will a Tynwald colleague please circulate my email to all Members.

Kind regards

Tony

Tony Wild
