

'Avian Flu' - Simply The Latest Fraud In The Mould of 'Covid' - 18/2/2025

So called 'avian flu' is the latest of 'viruses' which, when we look with clear eyes, are false claims. Notice that such callers, the cullers in the 'pandemic', only aim to kill off our food supply birds, not other, non-eaten birds... Heading those claims are Andrew Muir MLA in Northern Ireland, and Clare Barber MHK and 'Dr' Amy Beckett Chief 'Vet' of the Isle of Man. But they are each individually liable for false claims in their private capacity under The Rules of Equity, as we re-visit the justice system.

A cool head and kind heart are vital in this war, as only questions expose multiple 'science' frauds:

- 1) Which named individual man, or woman, is making the claim of 'avian flu' existence on paper?
- 2) Please produce the Method Statement for positively identifying any and all 'avian flu' symptoms?
- 3) Please provide precise symptoms of 'avian flu' as differentiated from any/all other 'bird' illnesses?
- 4) Can you provide written evidence of: bird to bird, or human to bird, or bird to human 'avian flu' transmission? (as all 'contagion'/'transmission' studies ever carried out in history, have failed).
- 5) Please confirm in writing if you are claiming that 'H1N1' or 'H7N9' or any Frankenscience 'virus' (or for other claimed bird or animal 'viruses' or 'strains' or 'variants') exist? - and that such an entity occurs in an isolated, purified, replication competent form - being precisely distinguished in a truly pathogenic i.e. disease causing form, using the Scientific Method with independent variable Controls.
- 6) Please confirm in writing that the 'H1N1' or 'H7N9' or a similar claimed 'pathogenic' entity, is not just simply an assumed in 'silica' i.e. computer constructed model of a: 'bird' or other claimed, 'virus'.
- 7) Please confirm in writing that any claimed 'genome' for any 'avian flu' or other claimed 'pathogen' is not an incomplete 'genome' - one which has not been made up, that is: 'assembled', or 'aligned' or 'smoothed'? to match a presumed model but never found naturally in nature without any tampering.
- 8) Please cite in evidence that any 'test' relied upon for 'avian flu' has a Certificate of Conformance as a diagnostic tool and is not simply an 'amplification' or 'doublication' laboratory research method? Typically known as a 'PCR' (Polymerase Chain Reaction) 'test', or similar - as that claimed 'test' has never had a Certificate of Conformance to be capable of 'testing' for any animal or human 'disease'.
- 9) If you, the claimant rely on a 'PCR' process for 'validation', how many 'cycles' have you deployed?
- 9a) Is the result of such a process able to be precisely undertaken for accuracy in a reproducible form? To be valid, such processes must all follow the Scientific Method to ensure 'testing' accuracy.
- 10) Was a defined Control used to ensure that all 'test' results are precise and contain only claimed 'avian flu' particles - such that no artefacts of the 'testing' process (calf serum, animal or human cells, growth media, anti-biotics, or other residual matter) have not contaminated any 'avian flu' sample?

There Is Remedy for those who come for Equitable Justice with clear conscience and clean hands. Such people can invoke the Rules of Equity of transparent justice, holding firm that those making a false claim remain fully liable in their private capacity. Best note the Maxim: *"Equity shall not allow a statute to be used as a cloak for fraud"* Please see tutorials and videos at <https://peacekeepers.org.uk> **which confirm the equality of all men and women to live in harmony and backed by true Law.**
