

Overview of the Energy Exchange (EE) for the different forms of Bio-Atunement support

Bio-Atunement Type of remote frequency support	1. Rescue Family Package	2. Heavy metals, body foreign substances &...	3. Full Service Bio-Atunement Vitality Support
For who	Whole family including pets	Personal	Completely personal
Kind of support	Acute or suddenly emerging situations e/o vitality complaints	Addressing ' unusual load ' and to upgrading energy level & mind power	Addressing root cause(s) & upgrade vitality physically & energetically
Delivery of:	1 Nail per family member or pet (for an animal like a horse a separate package is required)	2 Nails , when 2 generators are needed for the relief and detox & simultaneous DNA repair	2 to 4 Nails when 2 to 4 generators are simultaneous needed to address the root cause(s) & DNA repair
Advance information required:	For Bio-Atunement 'acute situations' we only require a brief questionnaire per family member, pet(s) or horse. <i>Acute situations can be imagined arising from existing complaints. If possible, the better frequencies can then be sent.</i>	To determine body foreign substances, we use a. the findings of the Vital Blood Scan that was recently done. b. If not, a blood sample (1 drop) 'read only' is taken for determination. In the latter case, a short questionnaire is also required	To make an adequate personal remote frequency plan of action, we need the findings of: a. Vital Blood Scan (VBS) with plan of action, preferably b. the Vital Blood Scan Xtra
Initiating frequency remote support:	After receiving questionnaires, nails and EE for any acute situation, just give us a call or send a text message for Bio-Atunement support as soon as possible. The earlier you contact the Support Team, the faster and better the results.	After receiving questionnaire, your blood sample, EE & nails, a brief plan of action is drawn up and after Zoom consultation, the frequency support will start.	If you select this option, an action plan will be drawn up for the first week based on the findings of the Vital Blood Scan. With the frequent feedback from your experiences, we can refine the Bio-Atunement approach for the best and fastest results. After receiving nails & 50% of the EE, we start in consultation with you with the frequency support.
Actions during treatment:	Inform the support team daily by text message and/or email. Feedback to the Support team provides quicker & better results. Especially after sprains, wounds and surgeries healing is many times faster & less pain and results in less scar tissue (more beautifully healed)	After every change of programs, the Support Team sent you a text message. For optimal results, briefly frequently share your experiences with the Support Team. Your regular feedback is necessary for a faster and the better results.	After every change of run of programs, the Support Team sent you a text message. For optimal results, briefly frequently share your experiences with the Support Team. Your regular feedback is necessary for a faster and the better results.
Average length of treatment:	3 to 5 days	21 days to 90 days	90 days
Assessment of results:	Own assessment, possibly in consultation with the Support Team	After 7 days a short zoom call concerning the experienced results. At the end of 21 days, own assessment or if desired a blood check scan 'read only' or Vital Blood Scan 'zoom version'	During 1st month, every 7 days a short zoom call concerning the experienced results. After 1 month, a new blood sample is needed for a refined approach. At the end of 90 days support, a check scan (Vital Blood Scan) for result determination to upgrade vitality.
