| Supervisor                  | Planning Section Chief  |  |  |  |
| Overview                    | v • Coordinates with check in activities with Admin.                                |  |  |  |
|                             | Prepare and process resource status change information.                             |  |  |  |
|                             | <ul> <li>Maintain master check in list of resources assigned to the EOC.</li> </ul> |  |  |  |
|                             | Prepare and maintain displays, charts, and lists, which show                        |  |  |  |
|                             | status and location of all assigned resources                                       |  |  |  |
| Description                 | The Resource Status Unit Leader is responsible for maintaining the                  |  |  |  |
|                             | status of all assigned resources (primary and support) to the EOC. This             |  |  |  |
|                             | is achieved by overseeing the check-in/ out of all resources,                       |  |  |  |
|                             | maintaining a status-keeping system indicating current location and                 |  |  |  |
|                             | status of all resources, and maintenance of a master list of all resources          |  |  |  |
|                             | (e.g., key supervisory personnel, primary and support resources, etc.).             |  |  |  |
| Responsibilities            | 1. Maintain record of all resources assigned to support EOC                         |  |  |  |
|                             | operations.   |  |  |  |
|                             | 2. Keep T-Card System Rack up-to-date.  |  |  |  |
|                             | 3. Coordinate with other units in the Planning and Intelligence                     |  |  |  |
|                             | Section and units in the Logistics Section to capture and                           |  |  |  |
|                             | centralize resource status information.   |  |  |  |
|                             | 4. Develop and maintain resource status boards.                                     |  |  |  |
|                             | 5. Supervise any assigned personnel.  |  |  |  |

|                   | plan copies, and other reference documents.  |
| Checklist -       | <ul> <li>Establish the T-Card Rack and accountability of personnel and</li> </ul>    |
| Operational Phase | equipment.   |
|                   | O Prepare assignment list and maintain master EOC organization                       |
|                   | chart.   |
|                   | O Coordinate closely with all units in the Logistics Section                         |
|                   | particularly supply/procurement, personnel, and transportation                       |
|                   | <ul> <li>As resource requests are received in the Logistics Section, post</li> </ul> |
|                   | the request on a status board and track the progress of the                          |
|                   | request until filled.  |
|                   | <ul> <li>Status boards should track requests by providing at a minimum,</li> </ul>   |
|                   | the following information: date & time of the request, items                         |
|                   | requested, priority designation, time the request was processed                      |
|                   | and estimated time of arrival or delivery to the requesting                          |
|                   | party.   |
|                   | <ul> <li>Work closely with other Planning Section and Logistics Section</li> </ul>   |
|                   | units and assist in notifying requesting parties of the status of                    |
|                   | their resource request. This is particularly critical in situations                  |
|                   | where there will be delays in filling the request.                                   |
|                   | <ul> <li>An additional status board may be developed to track resource</li> </ul>    |
|                   | use by the requesting party. Information categories might                            |
|                   | include the following: actual arrival time of the resource,                          |
|                   | location of use, and an estimate of how long the resource will                       |
|                   | be needed.   |
|                   | <ul> <li>Coordinate demobilization of resources to providing</li> </ul>              |
|                   | organizations (whether internal or external).  |
|                   | or Samzadons (whether internal of external).   |
