

WiseView™

...another feature of ThinkWise™ Technology

*Conveniently See Inside
Without Heat Loss!*

WiseView™

- Jamesway's optional WiseView™ cabinet windows allow you to monitor the progress of your eggs without losing precious heat and CO₂.
- Rack turning can be checked in the incubator through horizontal incubator windows in the doors.
- Chicks can be viewed through vertical hatcher windows that allow you to view the hatching eggs in their stack of plastic hatcher baskets from top to bottom.

WiseView™ optional windows on the hatchers include covers to keep light out during hatch cycle. WiseView™ incubator windows are coverless.
