

If Anti-gun Democrats
Win in November, They'll
Pass H.R. 5717 and Gut
the Second Amendment
Time to Send in the
Clowns.

Remember Democrat
Representative Hank Johnson of
Georgia?

He was the Congressman who
speculated, during a
congressional hearing, that the

addition of 8,000 Marines in Guam would cause the island to “tip over and capsize.”

Oh yeah, if you have never seen this [video](#), you’d have to see it to believe it.

Anyway, it turns out that Rep. Johnson has now ventured beyond his knowledge of earth science — or the lack thereof — to posit his views on gun control. That bill is H.R. 5717.

Where to start?

1) Red flag gun confiscation orders. Title IV of H.R. 5717 would establish federal funding for red-flag middle-of-the-night gun confiscation raids — without notifying the gun owner in advance or giving him a due process right to defend against the unsubstantiated allegation triggering the raid.

You may be aware that a second Marylander has been shot to death in an unannounced raid at 4:30 a.m. He was summarily executed for possessing guns,

even though he had been a juvenile delinquent.

2) Universal Background Registration Checks. Police would know which houses to raid because Title II of this bill would require most “transfers” to have background checks and 4473’s.

While 4473s are a decentralized form of registration, the ATF has come under fire for illegally copying these forms at many dealers’ place of business.

Expanding this practice would mean that all transfers would eventually be centrally registered.

What is a transfer? Well, it could include your simply handing a gun to someone who, unbeknownst to you, is a prohibited person. For example, if you hand a new gun to your veteran/neighbor to look at — and it turns out the Veterans Administration has appointed a fiduciary to look after his

financial affairs — you go to prison under H.R. 5717.

3) Licensing. Title I of the bill would license all firearms and ammunition. So the government could completely repeal the Second Amendment by simply refusing to license.

4) The anti-gun wish list. H.R. 5717 has many more things including a semi-auto ban, a ban on standard capacity magazines and suppressors, a one-gun-a-

month limitation, and much, much more.

So here's the question: is H.R. 5717 going to pass, even in the anti-gun House?

In December 2009, Johnson revealed that he had been battling [Hepatitis C](#) (HCV) for over a decade, which resulted in

slow speech and a tendency to regularly get "lost in thought in the middle of a discussion".^[50]

Johnson said that he learned he had the disease in 1998 but did not know how he contracted it.

HCV-induced liver dysfunction often leads to [hepatic](#)
