One (1) PENNY => 'DOUBLING'

<u>Question</u>: Which would YOU rather have...

- $1,000.00 a day - for 30-31 days

-OR-

ONE penny…
that <u>doubles</u>, every day - for 30-31 days?

How about $2,000 a day - or even $3000 a day, for 30-31 days?

Or, how about a lump sum of $1-Million - or even $2-Million?

(((-vs- One (1) Penny... Doubling, every Day - for 30-31 Days?)))

Most people would gladly take the $1,000 - $3,000/day, because most do NOT understand some important principles that wealthy people do.

It's no wonder that - MOST North Americans who retire at age 65 have less than $2500 in savings + incomes below the poverty level!

They have never grasped the power of COMPOUND growth

They have never implemented good Money Management principles

Here's how YOUR one <u>penny</u> would look
if it were to 'double' every day, for 30-31 days:

Day 1	1 ¢
Day 2	2 ¢
Day 3	4 ¢

Day 4	8 ¢
Day 5	16 ¢
Day 6	32 ¢
Day 7	64 ¢
Day 8	$1.28
Day 9	$2.56
Day 10	$5.12

Wow! DAY 10 and you're making a whopping $5.12! Your friends who took the BIG MONEY are probably having a good time at your expense or laughing at your 'mistake' (they now have $10,000!)

Day 11	$10.24
Day 12	$20.48
Day 13	$40.96
Day 14	$81.92
Day 15	**$163.84**
Day 16	$327.68
Day 17	$655.36
Day 18	$1,310.72
Day 19	$2,621.44
Day 20	$5,242.88

DAY 20 and you've made over $5,000! That's great - but it still doesn't compare with the $BIG MONEY$ ($20,000!) But, you have faith. and you are going to hang in there for the 'LONG HAUL'.

Day 21	$10,485.76
Day 22	$20,971.52

Day 23	$41,943.04
Day 24	$83,886.08
Day 25	$167,772.16
Day 26	$335,544.32
Day 27	$671,088.64
Day 28	$1,342,177.20
Day 29	$2,684,354.40
Day 30	on **DAY 30** => **$5,368,709**!!
Day 31	on **DAY 31** => **$10,737,000**!!

THERE YOU HAVE IT -- IN RED & WHITE

"Too good to be true?"

That's what SOME people will say about a penny-a-day - DOUBLING - even though the facts are very clear! Yes, go ahead and grab your calculator - run the numbers yourself. You should get the same results we did!

Over 5-Million dollars on the 30th day - using a penny - and 'doubling' it every day!

Over 10-Million dollars on the 31st day - using a penny - and 'doubling' it every day!

-VS-

$30,000 or $31,000

That's the **POWER OF ONE!**

GEOMETRIC / COMPOUND growth!

It just takes – action – time – patience – belief – persistence

IN REAL LIFE, SADLY, MOST PEOPLE QUIT OR GIVE UP LONG BEFORE THE REAL POWER OF THIS MODEL HAS EVER HAD A CHANCE TO 'START KICKING IN'.

What is shown above is called ===> The 'COMPOUND' FACTOR

BANKS use it -- MORTGAGE Companies use it -- INVESTORS use it.

It's how ASSETS are built -- it's how WEALTH is accumulated.

Many investors have made 'significant' wealth -- over long time periods. It's not that they are brilliant investors. NO. It's just that they have kept at it -- 'squirreling money away' -- on a regular basis. Most people begin their investment plan by starting small.

Then, they begin a program which allows them to invest a 'fixed dollar amount' - at a regular frequency -- called 'dollar cost averaging'. But, even more important than this...

Home Business Ownership - One of the finest ways to ensure that YOU reach the goal of total FINANCIAL FREEDOM is to start your very OWN Home Business - but choose wisely!

CONSISTENCY is K-E-Y!

The above example shows 1 Penny, "doubling" EVERY SINGLE DAY ... but, if a day was SKIPPED here and there … what would happen? It's like EXERCISING … or DIETING … if just ONE or TWO days are skipped ... the "results" will be astounding! Let's see W-H-Y …

One Penny … "doubling" … EVERY Day … for 30 days = $5,368,709!

One Penny … "doubling" … EVERY 2nd Day … for 30 days = $163.84!!
