

What Is Residual Income?

INCOME - There are two (2) ways to earn money - either you exchange your “on-going time, for money” (“on-going hours, for dollars”) - which is referred to - as (active) **LINEAR Income**, OR, you earn on-going (passive) **RESIDUAL Income** - from work done “once”.

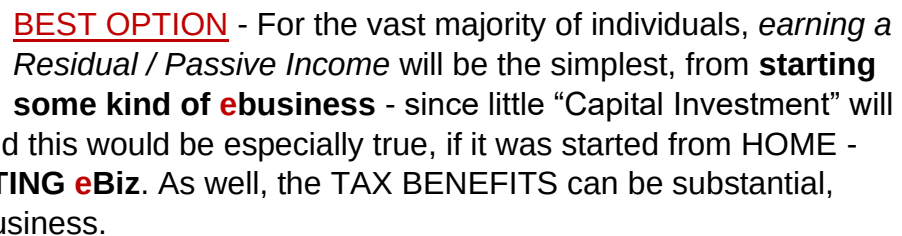

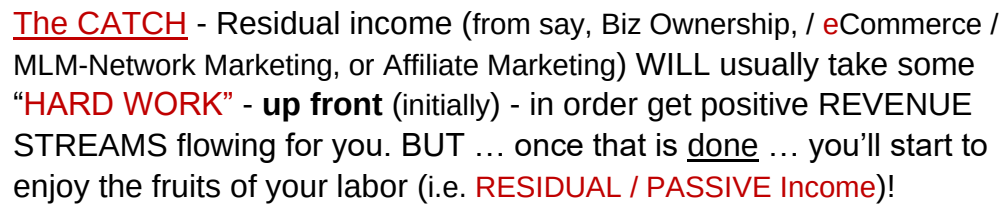

‘RESIDUAL’ Income - The appeal of this type of [on-going] revenue can indeed be very intoxicating - especially for “salaried workers” in a JOB - or, for those people whose jobs or careers, or professions, may be INsecure, due to an economic turndown, etc.

More FREEDOM - Again, **RESIDUAL** Income is money that you earn ... month-after-month ... for work you have “already completed”. So, whether you decide to go on a holiday ... or whether you have to take some time off, due to illness ... your cash-flow basically remains very “solid” ... while you do the odd bit of “maintenance”. Yes, it is like a dream come true ... opening up your options ... giving you more CONTROL ... which ultimately, translates into you having - a **PLAN “B”** ... for more FINANCIAL FREEDOM.

TYPES Of Residual (Passive) Income: Royalties ... Blog ... Rental Property ... Bonds / Stocks / GICs ... Immediate Annuities ... Digital Products (eBooks / Video Courses, etc) Business Ownership (managed by a third party) ... Internet Advertising ... eCommerce Marketing / MLM-Network Marketing / eCommerce / Affiliate Marketing / etc ...

Q - It's easy to see why RESIDUAL income is preferable - who wouldn't want to keep on earning money ... without having to do any (or much) work (other than “initially”)?

DIGITAL MARKETING
Using Digital Channels to Reach Consumers

The infographic features a central blue circle with the text "DIGITAL MARKETING" and "Using Digital Channels to Reach Consumers". Surrounding this central hub are various digital marketing channels, each connected by a red line. These channels include: a laptop, a shopping cart icon, a Wi-Fi signal icon, a YouTube logo, a hand holding a tablet, a Facebook logo, a hand holding a smartphone, a car advertisement (showing a red sports car), a Twitter bird icon, and a speech bubble icon.

1)- L-E-V-E-R-A-G-E - 2)- RESIDUAL [on going] **INCOME** -   
3)- COMPOUNDING - 4)- MASS APPEAL merchandise - that's often cleaner, greener, healthier, less expensive than much of the the competition - and often, requiring little to NO "new" \$\$\$... simply "switching stores" - to **ONLINE Shopping** ... and with 'potential' for more **FINANCIAL FREEDOM** as well - in return for some **HARD WORK**, at first.
