

EMERGENCY

[[[THERE'S A LOT OF CRITICAL INFO HERE – STUDY WHAT YOU CAN – IT APPLIES TO ALL OF US!]]]

‘Google’ These (3) World Experts...

Dr. Leonardo Trasande, MD, MPP - Professor, Department of Pediatrics / Professor, Department of Environmental Medicine / Department of Population Health - Wagner School of Public Service / NYU's College of Global Public Health]] -- *"There is increasing, and accelerating, evidence that synthetic chemicals, commonly found in the HOME, contribute to disease and disability."*

Dr. Tracey Woodruff, PhD, MPH - Professor, Ob/Gyn, Reproductive Sciences, School of Medicine, University of California / Environmental Health & Pollutants ... *"Unregulated chemicals are increasing in use, and are prevalent in products North Americans use every day. I am concerned by the concurrent rise in many health conditions, like certain cancers, or childhood diseases, and the fact that the environment is likely to play a role in those conditions. What motivates me is the belief that we need to know more about these harmful toxics, so that we can reduce our exposure to the worst of them, and protect ourselves, and our children, from their harmful effects."*

Dr. Aly Cohen, MD, FACP - Certified Rheumatologist, Integrative Medicine Specialist, CentraState Medical Center, Freehold, New Jersey. She's a trained specialist in Environmental Health, with a strong interest in "environmental chemical exposure" has led to her current collaboration with the Environmental Working Group (EWG.org) to create a CME accredited presentation on endocrine disrupting chemicals, and their relationship to our human health, designed specifically for physicians, nurses and other health professionals.

In her book - Integrative Environmental Medicine - she says ... *"At no other time in human existence have there been so many environmental changes. Over **87,000** chemicals are now commercially available, in the U.S. alone - almost all of which have not been tested for safety, particularly in young children and the growing fetus. The incidence of many chronic health problems, such as Type 2 Diabetes / Obesity / Thyroid disease / Asthma / Allergies / Autoimmune Disease / Autism / ADHD, and several Cancers."*

----- ALL of these also “weaken” the **IMMUNE SYSTEM** => think **COVID!** -----

Most COMMON **Toxins** Found IN Our Homes Today ...

VOC's [Volatile Organic Compounds] ... Mold [and other fungal toxins] Phthalates / PVC (Polyvinyl Chloride) ... Dioxins. ... Heavy Metals. ... Antibacterial Soap.....Plastic Water Bottles [with BPA] ... Polybrominated Diphenyl Ethers (PBDEs) ... Chloroform ... Fireplace Fumes Vinyl Shower Curtains & Floors ... Antiperspirants [with aluminum-based compounds! ++] Non-Stick Pans [with PFOA] ... Perfumes / Colognes / Shampoos [some have up to '300' chemical ingredients!] ... Aluminum Foil [unlike 'aluminum cookware, which is oxidized - aluminum foil can leach into your food WHEN COOKED at a high temperature!] ... Gas Space Heaters [carbon monoxide] Sunscreens [with benzophenone, octocrylene, and/or PABA] ... Cosmetics [potentially up to '126' harmful agents!] ... Furniture Polish & Stain [phenol / nitrobenzene] ... Oven Cleaners [many contain corrosive alkalis] ... Mothballs [naphthalene].... Flame Retardants [with chemicals, often found in older couches / mattresses / carpet padding] ... Flea and Tick Products [due to pesticides] ... Shaving Gel [PTFE] ... Plastic Cutting Boards [possible e-coli / salmonella in the cracks - use glass / bamboo] Cigarette & Cigar Smoke [obviously!] ... Laundry Detergents [formaldehyde!] ... Toilet Bowl Cleaners ... Pesticides [1,3-dichloropropene / glyphosate (a.k.a. Roundup) found on our fruits & veggies, etc]

The (6) Most TOXIC Household Chemicals ...

1) Antifreeze [swallowing antifreeze (ethylene glycol) may cause damage to the heart, brain, kidney, and other internal organs] ... 2) Bleach [being a strong corrosive substance, bleach can affect the respiratory system if inhaled] ... 3) Drain Cleaners. ... 4) Carpet & Upholstery Cleaners [very toxic for children] 5) Ammonia 6) Air Fresheners.

TOXIC EXPOSURE to these (often lethal) chemicals - in our water / food / air / homes / building materials / consumer products >>>>>>>>>> they are **HURTING** our health!

Add to this ... POOR NUTRITION [processed foods / fast-food outlets + too much white sugar / salt / flour] + lack of EXERCISE - and we are seeing "ever increasing" >>> **SICK POPULATIONS on the planet!** >> **WHY?** Because they're being "poisoned!" >> because their (our) **IMMUNE SYSTEMS** are fragile >>> because they (we) cannot "fight back"!

(62) CHEMICALS - The average household contains about **(62)** toxic chemicals, say most environmental experts. We're exposed to them routinely - from the phthalates in synthetic fragrances - to the noxious fumes in oven cleaners - on and on (see above).

As indicated above - ingredients in common household products have been linked to ...
asthma ... cancer ... reproductive disorders ... hormone disruption ... neurotoxicity.

This toxic body burden is **EWG's** chief concern about >>> [HOUSEHOLD CHEMICALS](#):

“Our concern is daily, weekly, chronic exposure over a lifetime. Maybe if you’re exposed to a chemical a handful of times, it wouldn’t cause harm, but some chemicals “build up” enough “over time” (or cause enough harm in your body over time), that it triggers some kind of disease outcome.” (EWG)

This is an EMERGENCY ... Our FAMILIES are at RISK!

M-O-R-E

DANGEROUS 'PRODUCTS' - We're talking about products like ... [Tide](#) ... [Lysol](#) ... [Cascade](#) ... [Plumr](#) ... [Pledge](#) ... [Windex](#) ... [Mr Clean](#) ... [Easy Off](#) ... [Comet](#) ... [Brite](#) ... [Drano](#) ... [All](#) ... [Bleach](#) ... [Kaboom](#) ... [Scrubbing Bubbles](#) ... [Redi Shine](#) ... [Fantastik](#) ... [Soft Scrub](#) ... [Spic and Span](#) ... [Misty Glass & Mirror Cleaner](#) ... [The Works](#) ... [Spartan Glass Cleaner](#) ... [Laundress](#) ... [Great Value](#) + tons of 'other' bad ones [with **84,000++** "chemicals" in them]!

NATURAL PRODUCT COMPANIES THAT HAVE SOLD OUT	
NATURAL COMPANY	BOUGHT OUT BY
Burt's Bees	Clorox
Seventh Generation	Unilever
Tom's of Maine	Colgate-Palmolive
Ecover	SC Johnson
Native	P&G
This is L	P&G
Schmidt's Naturals	Unilever
Nutranext	Clorox
RenewLife	Clorox
Laundress	Unilever
Cascadian Farm	General Mills
Kashi	Kellogg's
Boca Foods	Kraft
Lightlife Foods	ConAgra
Odwalla	Coca-Cola
The Body Shop	L'Oreal
Naked Juice	Pepsi
Energy Brands	Coca-Cola
Honest Tea	Coca-Cola
Food Should Taste Good	General Mills
Annie's, Inc.	General Mills
Blake's All Natural Foods	ConAgra
Van's Natural Foods	Hillshire Brands
Cereals from Hearthside Foods	Post Holdings
Lara Bar	General Mills
Bear Naked	Kellogg's

BUT ... WHAT ABOUT ALL THOSE SAFE, NATURAL PRODUCTS?

< Study this Chart! - Most of those great companies have been TAKEN OVER by the GIANT CULPRITS, who employ SYNTHETIC, harmful ingredients!

[[And this is a tragedy, since we [as consumers] NO longer have the luxury of CHOICE!]]

.....//.....

THE GIANT 'CULPRITS'?

[Johnson & Johnson](#) - [Colgate](#) [Palmolive](#) - [Unilever](#) - [Proctor & Gamble](#) - [Pfizer](#) - [Lever Brothers](#) - [Clorox](#) - [Kraft](#) - [Coke & Pepsi](#) - [Kellogg's](#) - [General Mills](#) ... on & on ...

.....//.....

WHERE WE 'SHOP' - We

pick up all these dangerous products -- from these Giant manufacturers -- at everyday Retailers, such as ... [Walmart](#) - [Costco](#) - [Amazon](#) - [Corner Stores](#) - [Pharmacies](#) - [Supermarkets](#) ... etc ... but we generally TRUST that the products they showcase, and sell, are SAFE for us! BIG mistake! WE need to do our own homework - "due diligence"!

Our 'FOOD'! - Here's just a "tiny sampling" - TOXIC METALS in our [Baby Foods](#)! This is only the "tip of the iceberg" - on many companies (including [Gerber](#)) >>> [Click HERE](#).

LAWSUITS! - If you were to do a 'Google Search' ... right now ... to SEE how many LAWSUITS are against - just **JOHNSON & JOHNSON alone** ... for damages, due to - their Baby Powder - their Artificial Hips - their Blood Thinners, etc ... you would see **OVER 100,000** of them ... Yes, there are **100,000**

CLASS ACTION LAWSUITS against J&J ... for FALSE ADVERTISING ... for HURTING many people ((with: Rashes - Allergic Reactions - Chemical Burns - Asbestos Cancers - Contaminated Talc ... and the **EPA** >>>> "keeps on approving dangerous chemicals"!

Yet sadly, we as consumers, continue to buy "truck-loads" of household products from these companies - every single day - being UNaware of the **DANGERS** - to our health - to our PETS - to the environment - that are lurking in them! [[see article >>> LUNG STUDY!]

COSMETICS / BEAUTY - The average person today applies **120 - 200 toxic, industrial chemicals** on their body before 9:00 AM! >>>> Click HERE >>>> HERE >>>> HERE!

CANCER Suits (J&J alone)! = very **B-A-D** Hombres! - WE have the SOLUTION to this (ongoing!) "horror" story! As intelligent "consumers", we need to seek an ALTERNATIVE!

Q: What About our Dietary SUPPLEMENTS? - SHOCKING! >>>>>> Click HERE!

In 2017, **Garden of Life**, makers of organic, food-based supplements - was purchased by **NESTLE**.

Nestlé is infamous for its "unethical" practices of selling infant formula & bottled water. They have been dubbed >>> **one of the most hated food companies in the world!** From child labor - to

pollution, the counts against the megacorporation are endless. Specific charges include:

Baby Formula - Bottled Water - Child labor and trafficking - Health Threats – Pollution - Ethiopian Debt During Famine - A Deal with Dictator Mugabe - Price Fixing - Promoting Unhealthy Food and Mislabeling ... on, and on, and on ...

QUESTION: Is this a company YOU would trust - or want to support?
