

## Nutritional Supplements => (4) Clinical STUDIES

---

NOTE: For just this manufacturer's NUTRITIONAL SUPPLEMENTS 'alone', there were four (4) extensive, highly successful - Human Clinical Trials performed - as follows:

**(#1) Heart Health -- (#2) Freiburg -- (#3) Sterling -- (#4) Deprivation**

(Each of these major [Nutritional Supplement] Clinical Trials are available for your own review)

---

## OLIGO Technology

As well, a 'patented' technology is utilized on their top Supplements - one that actually 'duplicates' the way that "minerals" are bound to organic compounds (oligofructose complex).

This process 'mirrors' exactly how the minerals are found in nature's Plants - being scientifically proven to provide up to (4) times "greater absorption" than minerals found in other leading brands - generating up to (5) times "fewer toxic, Free Radicals" - thus, "protecting" the Antioxidants - and "reducing" the Free Radical activity - throughout

the entire body - all, representing the use of exceptional science and technology. This is research that is unlikely to be found - with any other Nutritional Supplement - anywhere.
