

Nutritional Supplements => (4) Clinical STUDIES

<u>PART II</u>: For just this manufacturer's NUTRITIONAL SUPPLEMENTS 'alone', there were four (4) extensive - highly successful - <u>Human Clinical Trials</u> performed – i.e.:

(#1) Heart Health -- (#2) Freiburg -- (#3) Sterling -- (#4) Deprivation

(To see each of these major [Nutritional Supplement] Clinical Trials => Click on each image ABOVE + HERE)

OLIGO Technology

As well, a 'patented' technology is utilized on their SUPPLEMENT line - one that actually 'duplicates' the way that "minerals" are bound to organic compounds (oligofructose complex).

This <u>process</u> 'mirrors' exactly how the minerals are found in nature's Plants, being scientifically proven to provide up to (4) times "<u>greater</u> absorption" than minerals found in other leading brands - generating up to (5) times "<u>fewer</u> toxic, Free Radicals" - thus, "protecting" the Antioxidants - and "reducing" the Free Radical activity - throughout the entire body - all this, representing the use of exceptional science and technology - being the

kind of research that is unlikely to be found - with any other Nutritional Supplement - anywhere.

'EXTENSIVE' PRODUCT LINE - And SUPPLEMENTS are only a 'small' segment >>>> MORE.

Finally - One Last, Vital STUDY => the L-U-N-G Study! >>>>>>>> Click HERE!
