

## SOLAR POWERED

(The conversion of energy, from sunlight, into electricity - either directly, using photovoltaics (PV) - indirectly, using concentrated solar power - or a combination - offering a clean, renewable, source of power. See more => [Click HERE.](#))

Canada's first **SOLAR-Electric Tours & Transit System** - with both land and water vehicles - for the purpose of commute, sight-seeing, and fun, RIDE SOLAR provides a unique perspective to see, taste, & ride - in PEI and in Nova Scotia >>> that has never been available before this!

## SOLAR PEDAL BUS

Each Pedal Bus holds up to **(14)** people. After an introduction - explanation of all safety procedures - and finalizing any "drink purchases" on the Bus - clients can then go to (2) different, top "restaurant partners" - and then, take a tour through the scenic areas, and the waterfront of the town / city.

---

## SOLAR BOAT

---

Originally a "vaporetto", during the 1967 Montreal Expo (World's Fair), this 55 year old Canadian Heritage Vessel has been 100% "retrofit-tted and re-powered" - for its S-O-L-A-R CRUISES /.DINNERS / TOURS.

It has a *see through floor* - seats up to **40** - has Plastic Safety Panels up between each booth (COVID-19) - is the "world's first" SOLAR Powered Dinner / Cruise / Tour Boat - "North America's largest" SOLAR Boat!
