

**M.O.R.E:**

## 'MORE' A-L-E-R-T-S to Consider:

> **These Companies have a very dubious 'Business Model'**. A business structured so that your earning potential stems mainly from RECRUITING people to sell below you is not sustainable. See what Emily Lynn Paulson says, in her >>> [ARTICLE](#) >>> [BOOK!](#)

> **The 'Economic Rewards' promised are highly unlikely.** In fact, the vast majority of MLM recruits - actually LOSE money. **Now, let's really "dig in" to this! - - -**

> **Thousands of these companies CLOSE OUT, or they get SHUT DOWN** ... thus, hurting the [already bad!] reputation of the **MLM industry** ... even further ...

> **Their sales decline** - they get into big financial trouble - they are then forced to file for corporate, Chapter 11 **BANKRUPTCY**.

> **Lives Disrupted!** But even worse - very often - these actions will end up destroying the livelihoods of those who worked hard!

**Here are (just some of) the companies that are now G-O-N-E:**
