

? AFFILIATE MARKETING ?

Affiliate Marketing => BUT, with a major DIFFERENCE.
A TRUSTED eBiz Platform - for a Safer, BETTER FUTURE.

(Click First) >>>> [HERE](#) <<<< (Click First)

FACT: More than ever, people (especially [WOMEN](#)), now worry about - their finances - their futures - bad bosses - heavier [STRESS](#) workloads - low salaries - job insecurity ... often causing sleep loss / real fear / anguish / burnout / etc.

One SOLUTION: [AFFILIATE MARKETING](#) - **IS** a method of making good money Online, promoting OTHER'S products. You can earn a nice "side-income" - **PART TIME** - for every purchase made (like a "finder's fee" for referring new customers).

What Affiliate Marketing is NOT - It is not [MLM-Network Marketing](#) ... nor, is it [AI-Artificial Intelligence](#) (although some may use "certain aspects" of these, 'within' their [AM-Affiliate Marketing](#) eBiz Model - as a way to further "enhance" the success).

Ok, first, let us say you wanted to "get your feet wet", and create your OWN product(s) or service(s) to sell Online ([scary](#), but doable).

But - - **THEN** you discover what [Affiliate Marketing](#) is really all about ... and you decide that ... *instead* of finding that 'huge' amount of **CAPITAL + TIME + SKILL** required ... to "create" a **PRODUCT** or **SERVICE** (that some might not "want" to buy) ... you try selling **someone ELSE'S** - part time - Online - from your home - for your reward / **commission** (which is exactly what tons of ordinary people **are** doing today - to help "secure" their financial futures).

With over **\$2.5 TRILLION** (with a "T") per year, already being spent in retail purchases, Online, there's never been a better opportunity to "make money" than with an Online Business (**eBIZ**) - via - [Affiliate Marketing](#). ([BIO](#)) >>

50+? YES, [Affiliate Marketing](#) is also ideal for those who (like me) might be semi-retired, or approaching retirement (see the [HYBRID Retirement Lifestyle](#))! ☺

The **(#1) PROBLEM** for Affiliate Marketers is => **TRAINING**.

Luckily, there are many **FREE** Affiliate Marketing courses available Online - as well as many **PAID** ones available. And here's another area that will need careful attention ...

**WE NEED
TRAINING!**

>>> After much research => **HERE** <= is what I came up with: <<<

Note: The above DOES represent proper (QUALITY) “training” (for NEWBIES & PROS) to the **Affiliate Marketing** world - while at the same time, many are also FREE (as of this writing).

Yes, there are indeed, some “superb” PAID Affiliate Marketing TRAINING Courses (i.e. The Authority Site System, at \$997+ -- The Affiliate Lab, at \$979) – Post Affiliate Pro, at \$1,668 ... but each of these Courses is designed for “advanced” marketers, or those with “some” prior experience.

CAUTION

Also, there are plenty of ‘outdated’ tutorials and articles on the web, so make sure that you’re getting reliable information. DO all the research.

What Kind of SKILLS? - Over time, here are just a few:
Market Research / Website Building / Copywriting / SEO /
Advertising / Digital Traffic / Blog Marketing / YT Videos /
Social Media Marketing / eMail Marketing / Podcasts / etc

Success

Success ? Yes, highly' probable - but, it requires ... having a **G-R-O-W-T-H Mindset** too, and that you 'believe' that everything is within your reach - that you have the determination / perseverance / patience / the right work ethic - that you LOVE what you are doing - and that you'll HELP OTHERS along the way!
