HBA is not **MLM** or **AI**. It's a heart-centered group of home business entrepreneurs, with high integrity, and a very strong desire to help others in building thriving Home-Based eBusinesses, so that they can have the resources, the time, and the financial freedom, to spend more time with their families ... doing what they truly love to do.

And to underscore its continuing generosity, HBA has provided "tens of thousands" of MEALS to grateful, starving children ([FMSC](#)) worldwide. HBA (The Home Business Academy) - it continues to show its fans an "exemplary" overall Company CULTURE.
