

# Women - AND -

## Financial Security

Hello, and Welcome! My name is Peter Arnold. I am a Business & Financial Consultant, and a Natural Health & Wellness Advocate. I am very glad to be able to share this vital message with you at this time. (BIO) >>

Financial Planning - for **women** - is unique. Why? Because they earn less money, and they're expected to do 'much more' with it. Hmmm. Well - by advocating, for yourself ... enlisting [the 'right kind' of] help ... blocking out the noise ... and planning - according to your own personal goals - you'll go a long way toward ensuring YOUR financial security!

WOMEN PROFESSIONALS & ENTREPRENEURS: This is especially true for hard working **female** - REALTORS - NURSES - TEACHERS - PHYSICIANS - WRITERS, etc., because YOU are usually - under quite "high stress" - while also, being "UNDER-paid".

Generally, women "work fewer years" and "earn less money" than MEN - but they also tend to "live longer". Also, women often "leave work to bring up children. or care for elderly relatives" - thus having fewer work hours. And, women also receive "lower Social Security benefits" than do MEN!

Financial EXPERTS - There are many who "cater strictly to WOMEN" ... and, who are themselves, women. One of these [a Canadian] is Janine Rogan, CPA (who also has an excellent [PINK] eBook - just for women). Others, on FINANCES are ... HERE ... HERE ...

Nevertheless, you should focus on those financial concerns that are "unique" to YOU - then take the necessary ACTION - now - to "correct" things - when planning ahead, for **greater Economic FREEDOM + EMPOWERMENT** in your life ["regardless" of your age] - perhaps, starting with >>> **earning MORE MONEY** >>> *ideally, from generating PASSIVE Income streams* - via some kind of a [Part Time / Home-Based] - "Side Hustle"? At this time, I'm working on an idea for those of us **50+** - the HYBRID Retirement Lifestyle.

Typically [sadly], this is **not** a strategy that "most" of today's [so-called] Financial Experts [CPAs, Financial Planners, Attorneys, and Tax Experts] are teaching, or educating them on the ... and thus, people do suffer.
