

HUMANS were never meant to “eat” ANIMALS! Animals eat Animals!

Also, we **HUMANS** don't have "carnivorous" **TEETH** [with huge FANGS, to slash through the outside animal flesh, and chew up the inside animal guts] - we can move our jaws up and down, and from side to side ... and we also have FLAT MOLARS (which “carnivores” lack) ... allowing us to “grind up our **PLANT**-Based fruits and veggies” (providing all the **PROTEIN** we'll ever need) - by using our own “normal, human, back **TEETH**” ... exactly the same way as those “herbivores” do. :-)

In the book of Genesis, telling of the Creation of Man, GOD specifically tells Adam and Eve of the only **FOODS that he had provided for them to eat: “I give you every seed-bearing plant on the face of the whole earth, and every tree that has fruit ... with seeds in it ... they will be yours ... for food”.**

(Again, Not ANIMALS)!
