

HBA 'Freedom Fest' – Nov / 24

Amy Starr Allen Gives Her 'Detailed' Account of This!

"I just returned from the **HBA "Freedom Fest"**, Nov, 2024 - and I'm still processing everything that happened there.

My heart is literally overflowing with gratitude, and SO much love, for this amazing HBA community, and everybody in it. I know I'm not the only one that's feeling this way right now.

I just put together this **VIDEO** for you - to share some of the things that happened at the event, and some of the many ways that make the **Home Business Academy (HBA)** platform, and its community, so much different than anything else I have ever been a part of in my 20+ years as an online entrepreneur.

Note: There's a 'lot' on this video ... pics, awards, events, etc ...

I did my best to "capture the emotions, and the comradery", that went on last week - to show you what's possible.

I really do feel like it's my job, while I'm here on this earth, to help people to be FREE - and to show that things *can* be done differently - with heart ... and in a way that really matters.

If you are an online marketer (or have any desire to learn how to be one) and you are looking for a place where "everyone is treated equally - everybody belongs - everyone is accepted" - and where there are - NO clicks - NO ranks - NO separation - and where everyone really just "wants to be together" – then, I really recommend watching this [45-min] video, when your time permits..

I hope this helps, and let me know if you have any questions, or if I can assist, in any way".

Love, Amy ❤️
