

New note from 1-20-2021

been a few cold days, or weeks, so I have been working on the book again, finally got the spell check working and corrected a number of grammar issues. I also broke the book into 6 parts rather than 4, and with a number of new chapters added I decided to call it version 4 and change it from a single large document into 8 smaller ones in open office format which I can edit much easier and export into pdf.

I have included the base for 6 planned chapters though I have not actually fleshed them out yet, the draft will be updated as I do.

As always I appreciate any feedback, I can be contacted at [Bogtrotterso1@protonmail.com](mailto:Bogtrotterso1@protonmail.com)
