

# Stem 12 Ambulance

Cabin boat with ambulance equipment for rescue and medical transport

# 

## **Stem 12** Ambulance

#### **General features**

- Hull and deck in GRP with vinylester resin and Kevlar layers, moulded with vacuum infusion system.
- GRP cabin with medical equipment compartment.
- D shaped fender made of energy absorbing polyethylene foam encapsulated within a resilient polyurethane elastomer.
- Special equipment for medical rescue and resuscitation including a shock absorbing stretcher-support and medical equipment.
- · Cabinet for medical equipment.
- IV hook, oxygen system.
- · Air conditioning for cabin.
- · Lloading systems for roll-in and basket stretchers.
- · Self-draining deck.

## **Technical specifications**

Design category	B - (A)
Hull length	11.99 m
Length overall	12.65 m *
Width overall	3.70 m
Payload (people included)	1500 kg *
Fuel tank	2x500 l inox

<sup>\*</sup> Variable data depending on configuration

#### **MAST25** Marine stretcher platform

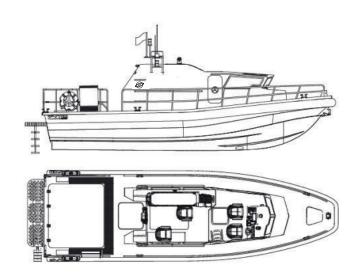

Shock-absorbing support for nautical-use stretchers with self-adjusting hydro pneumatic suspension

### **Engine**

- In-board Turbo Diesel engine- recommended power 2x450 hp (Max 2x600 hp) - with waterjet propulsion, suitable for emergency operations in shallow waters and high maneuverability in narrow spaces.
- In-board Diesel engine with sterndrive or IPS recommended power 2x400 hp (Max 2x600 hp) for high performances.
- Outboard engines 3x300 hp.

Wide range of optional accessories available on demand

#### Standard equipment

- · Hydraulic steering.
- Double bilever commands for engines and waterjets.
- Work bollard on the bow.
- 4 Hoisting rings.
- 6 Mooring cleats.
- 2 Towing hooks at stern and 1 at bow.
- Stainless steel handrails on the perimeter.
- · Navigations lights and mooring light.
- Blue flashing light.
- Siren and loudspeaker with sound selection (emergency, police...).
- Stern platform in stainless steel equipped with a dive ladder also in stainless steel.
- Loading ramp in stainless steel integrated iunder the rear platform for basket type stretchers.
- · Folding loading ramp for roll-in stretchers.
- Stern LED light to lighten the rear deck.
- Heating/cooling system for the cabin.
- · Cabin insulating coating.
- · Rear access door weather proof type.
- Windows in tempered glass with windshield.
- Basic cabinets and storage for ambulance equipment.
- Shock absorbing support MAST for patient transfer on stretcher.
- Bench for crew's sitting places.
- · WC room with fresh water tank.
- Sliding door separating the medical area from the pilot cabin.
- · Service door co-pilot side.
- Pilot console with hatches for access to electrical connections.
- Shock absorbing seats for pilot and co-pilot.
- · Magnetic compass.
- Radio VHF.
- Radar + GPS chart plotter.
- · Echo sounder.
- Electronic battery charger with socket for shore power.
- 4 Electric bilge pumps with control panel with acoustic and visual
- Mooring line with electric windlass.
- · Marine diesel generator suitable for the fitting.
