

Patrol 750

 High performance open boat for patrol

MARINE

Patrol 750

General features

- Hull and deck in GRP with vinylester resin and Kevlar layers, moulded with vacuum infusion system.
- Outboard standard propulsion with double engine.
- Customized configurations available on demand.
- "D" shaped pneumatic fender made of high resistance Hypalon®-Neoprene 1670 dtex, acting as buoyancy reserve and bumper.
- Floating hull with deflated tubes.
- Self-draining deck.

Technical specification

Design category	B
Hull length	7,50 m
Length overall	8,08* m
Width with deflated tubes	2,48 m
Width overall	2,74 m
Empty displacement	3000* kg
People capacity	14*
Tube sectors	5
Fuel tank	320 l-inox

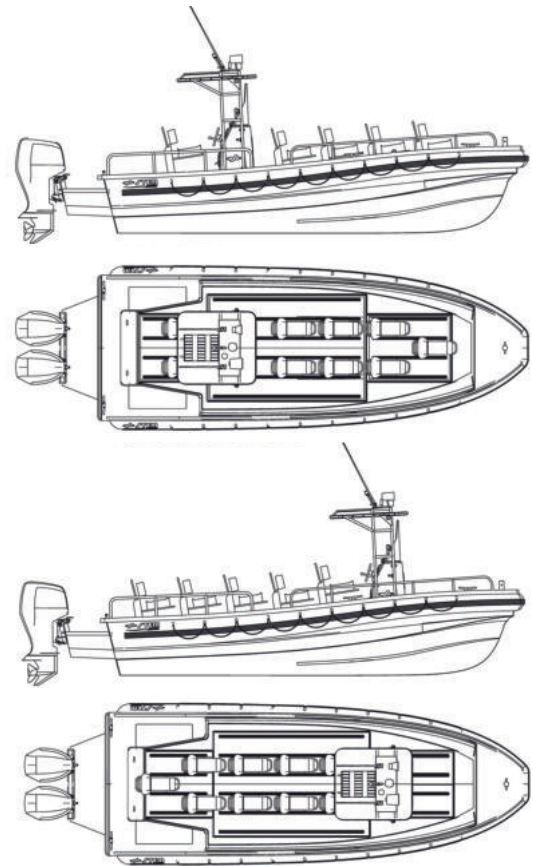

* Variable data depending on configuration

Standard equipment

- Hydraulic steering.
- 4 Hoisting rings.
- 6 Mooring cleats.
- 2 Towing hooks at stern and 1 at bow.
- Stainless steel handrails on the perimeter.
- Stern platform in stainless steel equipped with a dive ladder also in stainless steel.
- Stainless steel T-top with canopy.
- Navigations lights and mooring light.
- Acoustic warning.
- Double bolster seat.
- Pilot console with hatches for access to electrical connections and two small lockers.
- Windscreen.
- Magnetic compass.
- Radio VHF.
- GPS chartplotter.
- 12V DC cigarette lighter socket and 12V DC watertight socket.
- Electronic battery charger with socket for shore power.
- 3 Electric bilge pumps with control panel with acoustic and visual alarm.
- Floating stainless steel ladder.
- Mooring line.
- Electric inflator.
- Repairing kit.

Engine

- 2 outboard engines: 2x135 hp (Max. Power 2x150 hp).

Optional equipment

- Stempost protection against abrasion.
- Foam filled bow fender.
- "D" shaped foam filled complete fender.
- Hard Top in GRP with stainless steel support frame, complete with bow lights.
- Electrically operated searchlight (manual if requested).
- 2 LED lights on the t-top, bow and stern.
- 2 Lateral LED lights on the t-top.
- Blue flashing light.
- Siren and loudspeaker with sound selection (emergency, police...).
- Radar.
- Echo sounder.
- Stainless steel bollard on the bow.
- Stainless steel roll-bar.
- Connecting structure from roll-bar to hard-top with protecting.
- Awning for the patient treatment area.
- Shock absorbing seats.
- Single or double "jockey" seats for military setting outs.
- Removable stainless steel skuba tank rack.
- Diesel engine firefighting system, delivery:1300l/min at 10 bar. with stainless steel monitor.
- Anti-slip grating on deck.
- Safety equipment.
- Life raft for 10 people.
- Kit sangles de levage.
- Road trailer.
