BUSINESS WITH
PODCASTING**

Jaime Tardy: Eventual Millionaire
Jaime was always intrigued with the

idea of making a million dollars since childhood. She followed the supposed path of going to a great school, working full-time in college and having an expense account by the age of 22. But eventually, she found herself with over \$70,000 in debt. What bothered her more was the job she had was dreadful, and she hated it. Determined to crush her debt, she quit her job and looked for inspiration. Then, she comes up with the brilliant idea of interviewing successful entrepreneurs. She invested in this idea which catapulted to a six-figure business.

Hey, it's Abhi Dwivedi along with my business partner Neil Napier...

After content marketing (like: blogs) and video marketing took the online marketing world by storm and encouraged marketers and product creators to build tools around them...

...there's now a shift to tap into Audio Marketing, which is without a doubt the next BIG Thing.

I bet you've heard all about Clubhouse in the last 6 months...

“Clubhouse” Is a Perfect Example of Why YOU Should Jump into Audio &

Looking at its phenomenal growth

- Clubhouse can be termed as the **Twitter of 2021.**

It has **10 million weekly active users**, up from 600,000 in December 2020.

And a valuation of **\$4 BILLION!**

Grant Cardone used Clubhouse to crowdfund \$8.5 Million for his new business
Clubhouse is where you need to be promoting your business...

...and the best way to do that of course is by **hosting your own podcast.**

Most Marketers (including us) know that generating quality leads from YouTube, Facebook, Instagram, Twitter, and other such platforms is becoming MORE expensive and time-consuming.

But - there's one method that's been growing in popularity & reach pretty fast...

PODCASTS - The Trending Way To Grow Your Business

The podcast industry is

snowballing.

Everyone and their dog is starting a podcast. The industry is already worth over \$1 Billion a year. And I bet you've at least listened to a podcast in the last 3 months.

And I also bet you want to start one? But only if it was easy..?

Don't worry... you are still very early to this trend because:

The number of podcast listeners is growing faster than the number of podcasts. Demand is greater than supply (and that's where you come in!)

Podcast Consumption is BOOMING! See For Yourself...

As of April 2021, there are over **1,900,000 podcasts** and over **47 million episodes.**

By 2024, it's estimated there will be **100 million podcast listeners in the U.S.**

Podcast advertising revenues are expected to surpass **\$1 billion in 2021**

More than 50% of listeners are at least somewhat **more likely to consider buying** from a brand after hearing its advertisement on a

podcast.

75% of the US population is familiar with the term “podcasting” – up from 70% in 2019 (Infinite Dial 2020)

**The fact is...audio and podcast
marketing is going to Skyrocket
your business in 2021 and
beyond!**

**There is NO better way to
establish authority AND influence
people than by getting to talk to
them first thing in the morning,
while they are on their daily walk
or while they work out.**

Here's Why Business Owners Are Jumping Through Hoops To Create Their Own Podcasts:

HIGH ENGAGEMENT & LOW COMPETITION

While there are around 80 million
Facebook business pages, there's only

850,000 podcasts airing. Even more encouraging is that here's only 377,000 podcasts that have published anything since October, 2020 and they have at least 10 episodes in total. The arena is wide open and growing. Plus this number shrinks when you search by topics.

There may be only a handful of other podcasts discussing the topics relevant to your business, with hundreds to thousands of listeners.

CONVENIENT FOR LISTENERS

Unlike written blog content, which has to be read, or even videos that require audiences to sit and watch.

All a podcast listener has to do is hit play and listen

MOBILE-FRIENDLY CONTENT

69% of podcast listeners are on their mobile devices.

This makes it easy for podcast listeners to consume this content while they are on the move, whether at the gym, in the car, relaxing at home, or elsewhere.

GROWING IN POPULARITY

The podcast audience is expected to grow to 115 million by 2021.

Getting into the podcast game now will

allow you to beat the crowd and begin developing an audience before the heavier competition sets in.

EXTREMELY LOYAL AUDIENCE

Podcast listeners are 20% more likely to connect with a brand on social media.

When the podcast is over, audiences will turn to channels like social media to continue the conversations and interact with each other and your business.

HIGHER NET WORTH

The average listener earns around \$10,000 more than the average U.S. consumer, according to a report on podcast consumers. And, 15% of listeners earn over \$150,000.

This means podcast fans are more likely to have disposable income, which they are willing to spend with their favourite brands and businesses.

This makes them a high-value market segment.

Absolutely brilliant support service. ❤️

bCast may be a relative newcomer to the pod hosting space but they obviously saw a need for brilliant support and innovative features to support techy (and not-so-techy) podcasters alike and are fulfilling that in spades. We've been so impressed with their responsive concierge service and constantly evolving feature roadmap that we have zero regrets at jumping onboard. If you're not with bCast yet, you should be!

One to watch

bcast is a clean hosting platform with a shallow learning curve and a host of help documentation, as well as one of the fastest support teams I have ever come across.

There are plenty of podcast hosts to choose from but the bcast usp is that its more oriented for marketers with such features as inserts that allow you to directly insert ads into your podcast.

It's a young platform with a team hungry to make it the best.

Awesome product + team!

For a podcasting beginner like me, bCast has been very easy to use. The interface is intuitive and doesn't feel overwhelming. It's also really easy to set up your podcast.

More importantly, the bCast team is always quick to answer questions (and very enthusiastic too, might I add) and to assist in resolving issues.

Major props to Tom, Chad, Neil, Anastasiia, and Audrey! I really felt taken care of. The team is great and very helpful. Thank you!!

at... like I'm in good (and very capable) hands. Thank you!!!

Audio Inserts For Bringing Listeners Into Your Funnel

With Audio Inserts, it becomes incredibly simple to bring you listeners into your marketing funnel.

Simply create a piece of high value content (could be a remote event, eBook, webinar or video case study) that you know will add value to the lives of your listeners... record a 20 second monologue explaining why your listeners need this.

And then insert it into every episode in your backlog in a few seconds and a couple of clicks with Audio Inserts.

Convert Listeners Into Leads

Simply read out an offer that your listeners have to opt in to receive, such as a video case study, eBook or webinar and then ask listeners to send a blank email to your Auto Optin Email address. Our research shows that using a bCast email address increases the conversion rate from listener to lead by 25%!

You can even create an email address on your own domain, and then forward all emails from that domain to your bCast Suite Auto Optin email address.

Feed Leads Directly Into Your Autoresponder

1-Click Transcription

Audio content is notoriously hard to index. In human terms, this means, it isn't easy to find what you're looking for.

Google has nailed indexing written

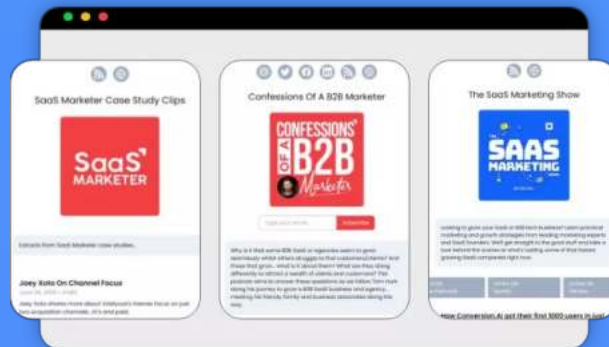

content, but not audio yet.

Until that happens... we need to translate your audio content into written content.

With bCast Suite you can do this with the click of a button.

You upload an episode, click that button and in just seconds bCast Suite will share a full transcription of the episode.

Simply add this to your show notes, which will then update on your bCast Suite podcast website for Google to find.

Done-for-You Stunning Podcast Website

bCast Suite automatically generates a beautifully designed, SEO optimised, fully-customisable podcast website.

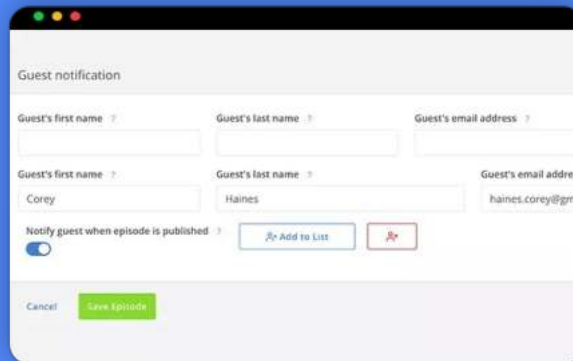

It will link back to your domain (a "do follow" link!)..

...will list each episode
...and will link out to the big directories so people can easily subscribe.

You can even take it off our domain and onto a new domain such as: "YourAwesomePodcast.com", or a sub-domain of your current site: "podcast.YourAawesomeBusiness.c

om". .

All you need to do is click one button within your bCast dashboard.

Enable Guest Notification To Get EXTRA Leads

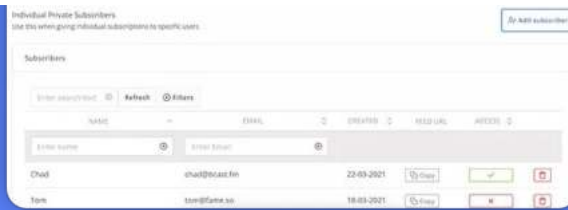

Each guest you bring onto your show has a number of people that will listen to anything they appear in. These people could very well become loyal subscribers to your show, and ultimately even customers of your business.

All you need to do... is get your guests to share the episode with these people. With bCast Suite you can simply add the name and email address of your guest into the episode screen and then as soon as your episode goes live...

...bCast Suite will send them an email with auto-generated share links for all major social platforms. Your guest simply has to open the email, click one of the links and then publish the social post... and you get more subscribers.

It really is that simple

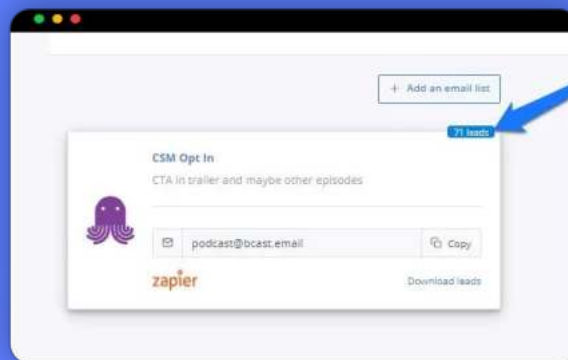

Run Private Podcasts

Do you run a membership site, internal podcast or just want to curate who has access to your audio content?

Awesome, bCast Suite is ready for you...
