AdSense Profits

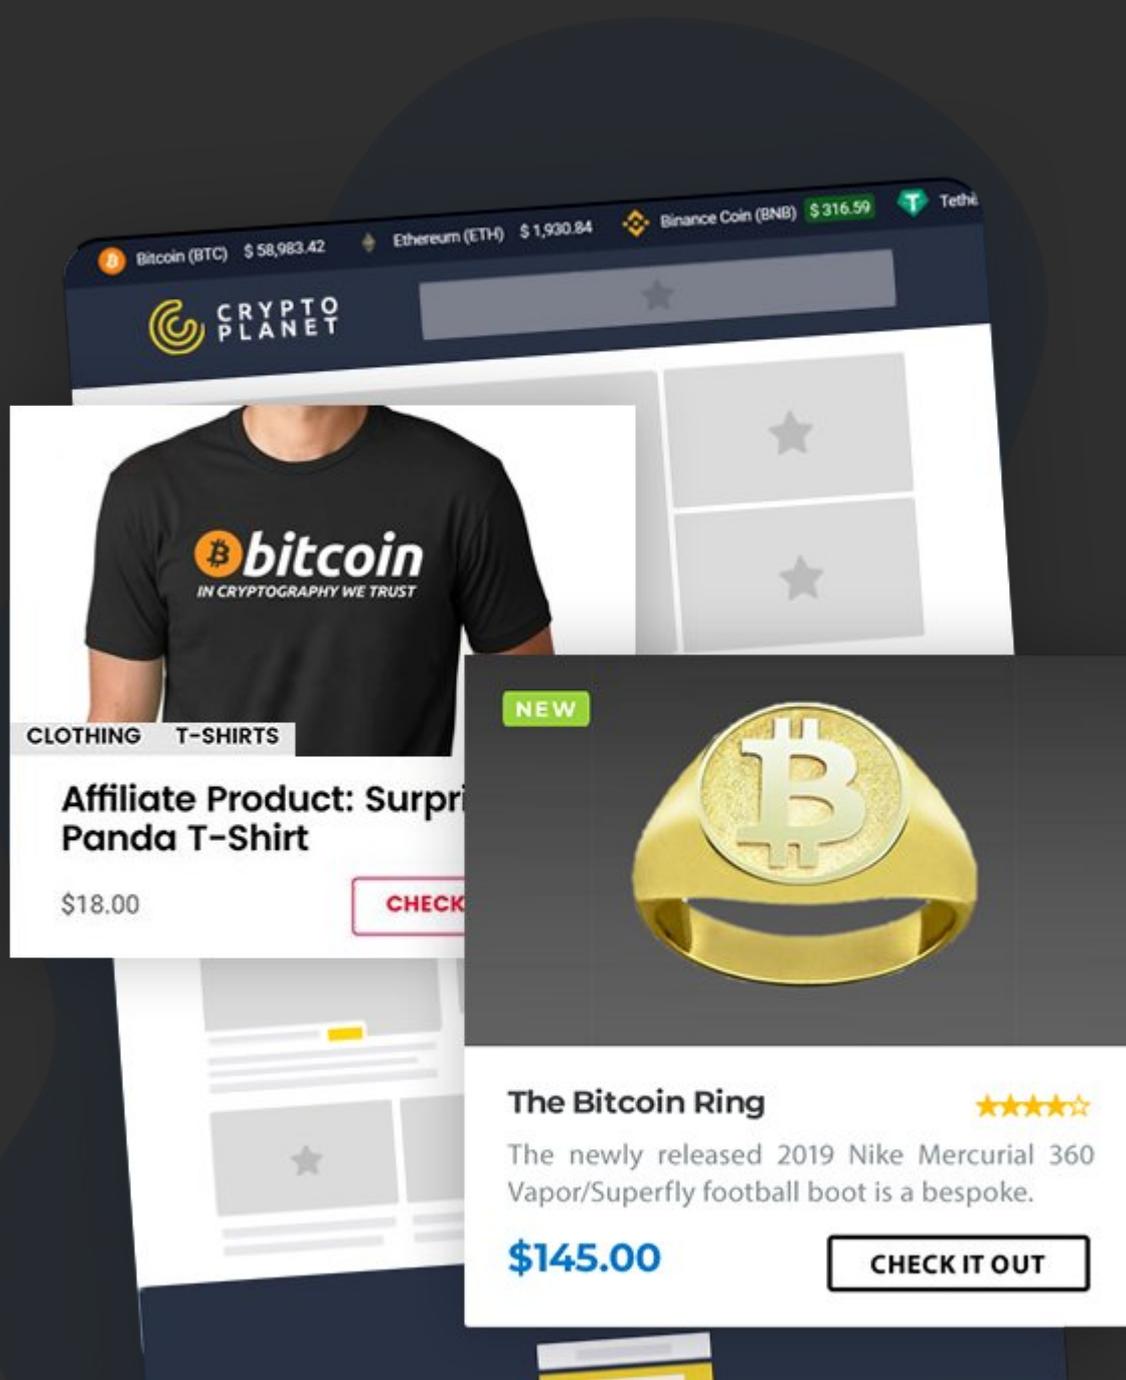

AdSense is a free, simple way to earn money by displaying ads next to your online content.

The AdSense Program delivers ads served by Google Ads to your site.

Google then pays you for the ads displayed on your site based on user clicks on ads or on ad impressions, depending on the type of ad.

AdSense is definitely an amazing way to earn money online in 2020.

Monetized with AdSense (combined with a few affiliate products/services in addition to AdSense), they bring regular revenue every month.

eCom Sales

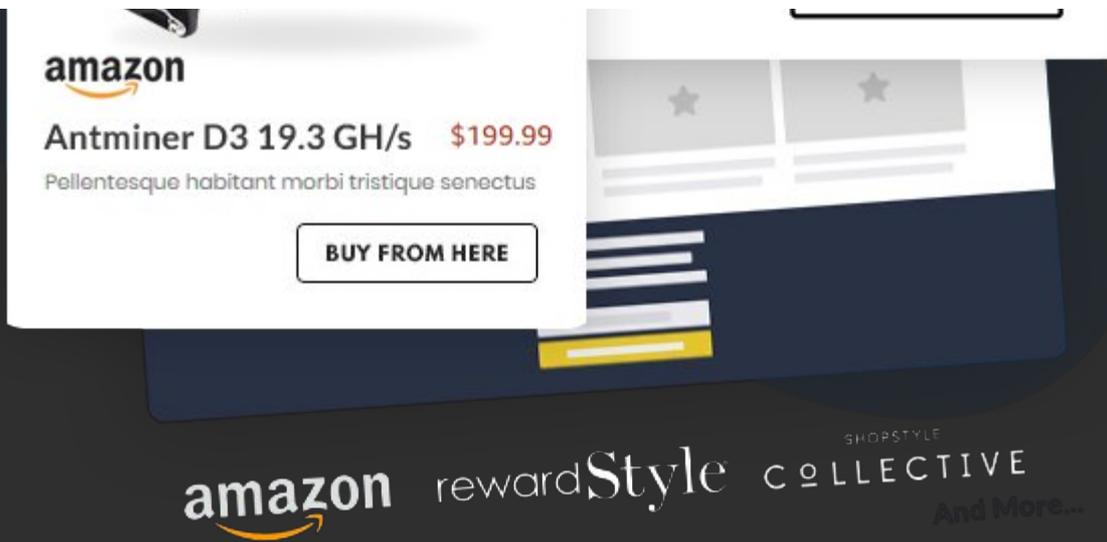

Ecommerce, also known as electronic commerce or internet commerce, refers to the buying and selling of goods or services using the internet and the transfer of money and data to execute these transactions.

eCommerce is a big, profitable business.

A lot of suppliers choose to open a shop on e-commerce platforms.

According to Forbes, at three months, the average ecommerce site is generating just over \$150,000 in monthly revenue. By the end of year one in business they are averaging almost \$330,000 in monthly revenue, and after three years they're bringing in over \$1 million.

Amazon Commissions

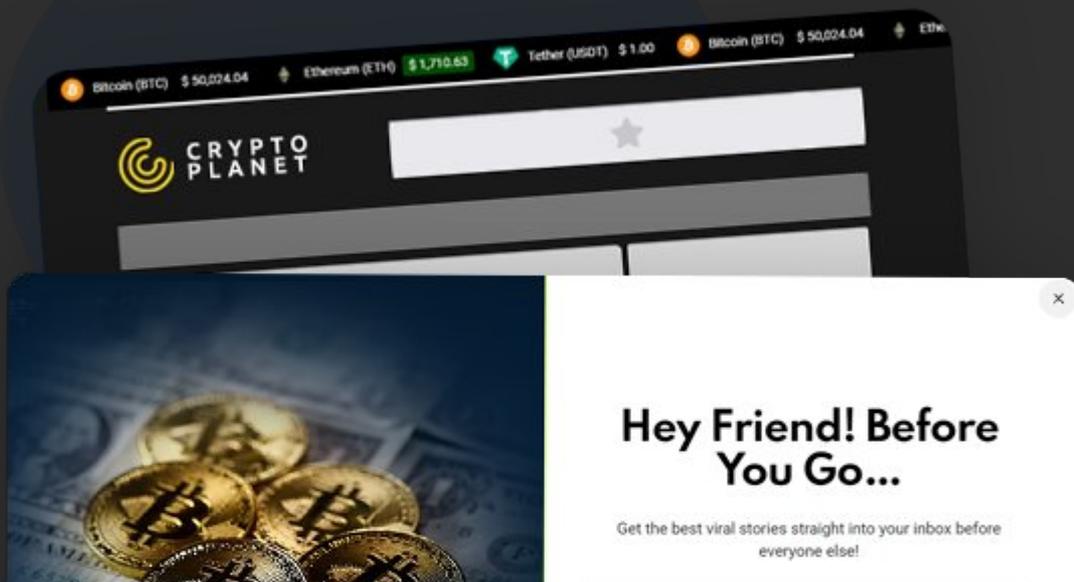

The Amazon associates program has long allowed its members to earn a commission when a shopper buys a product through a special tracking link.

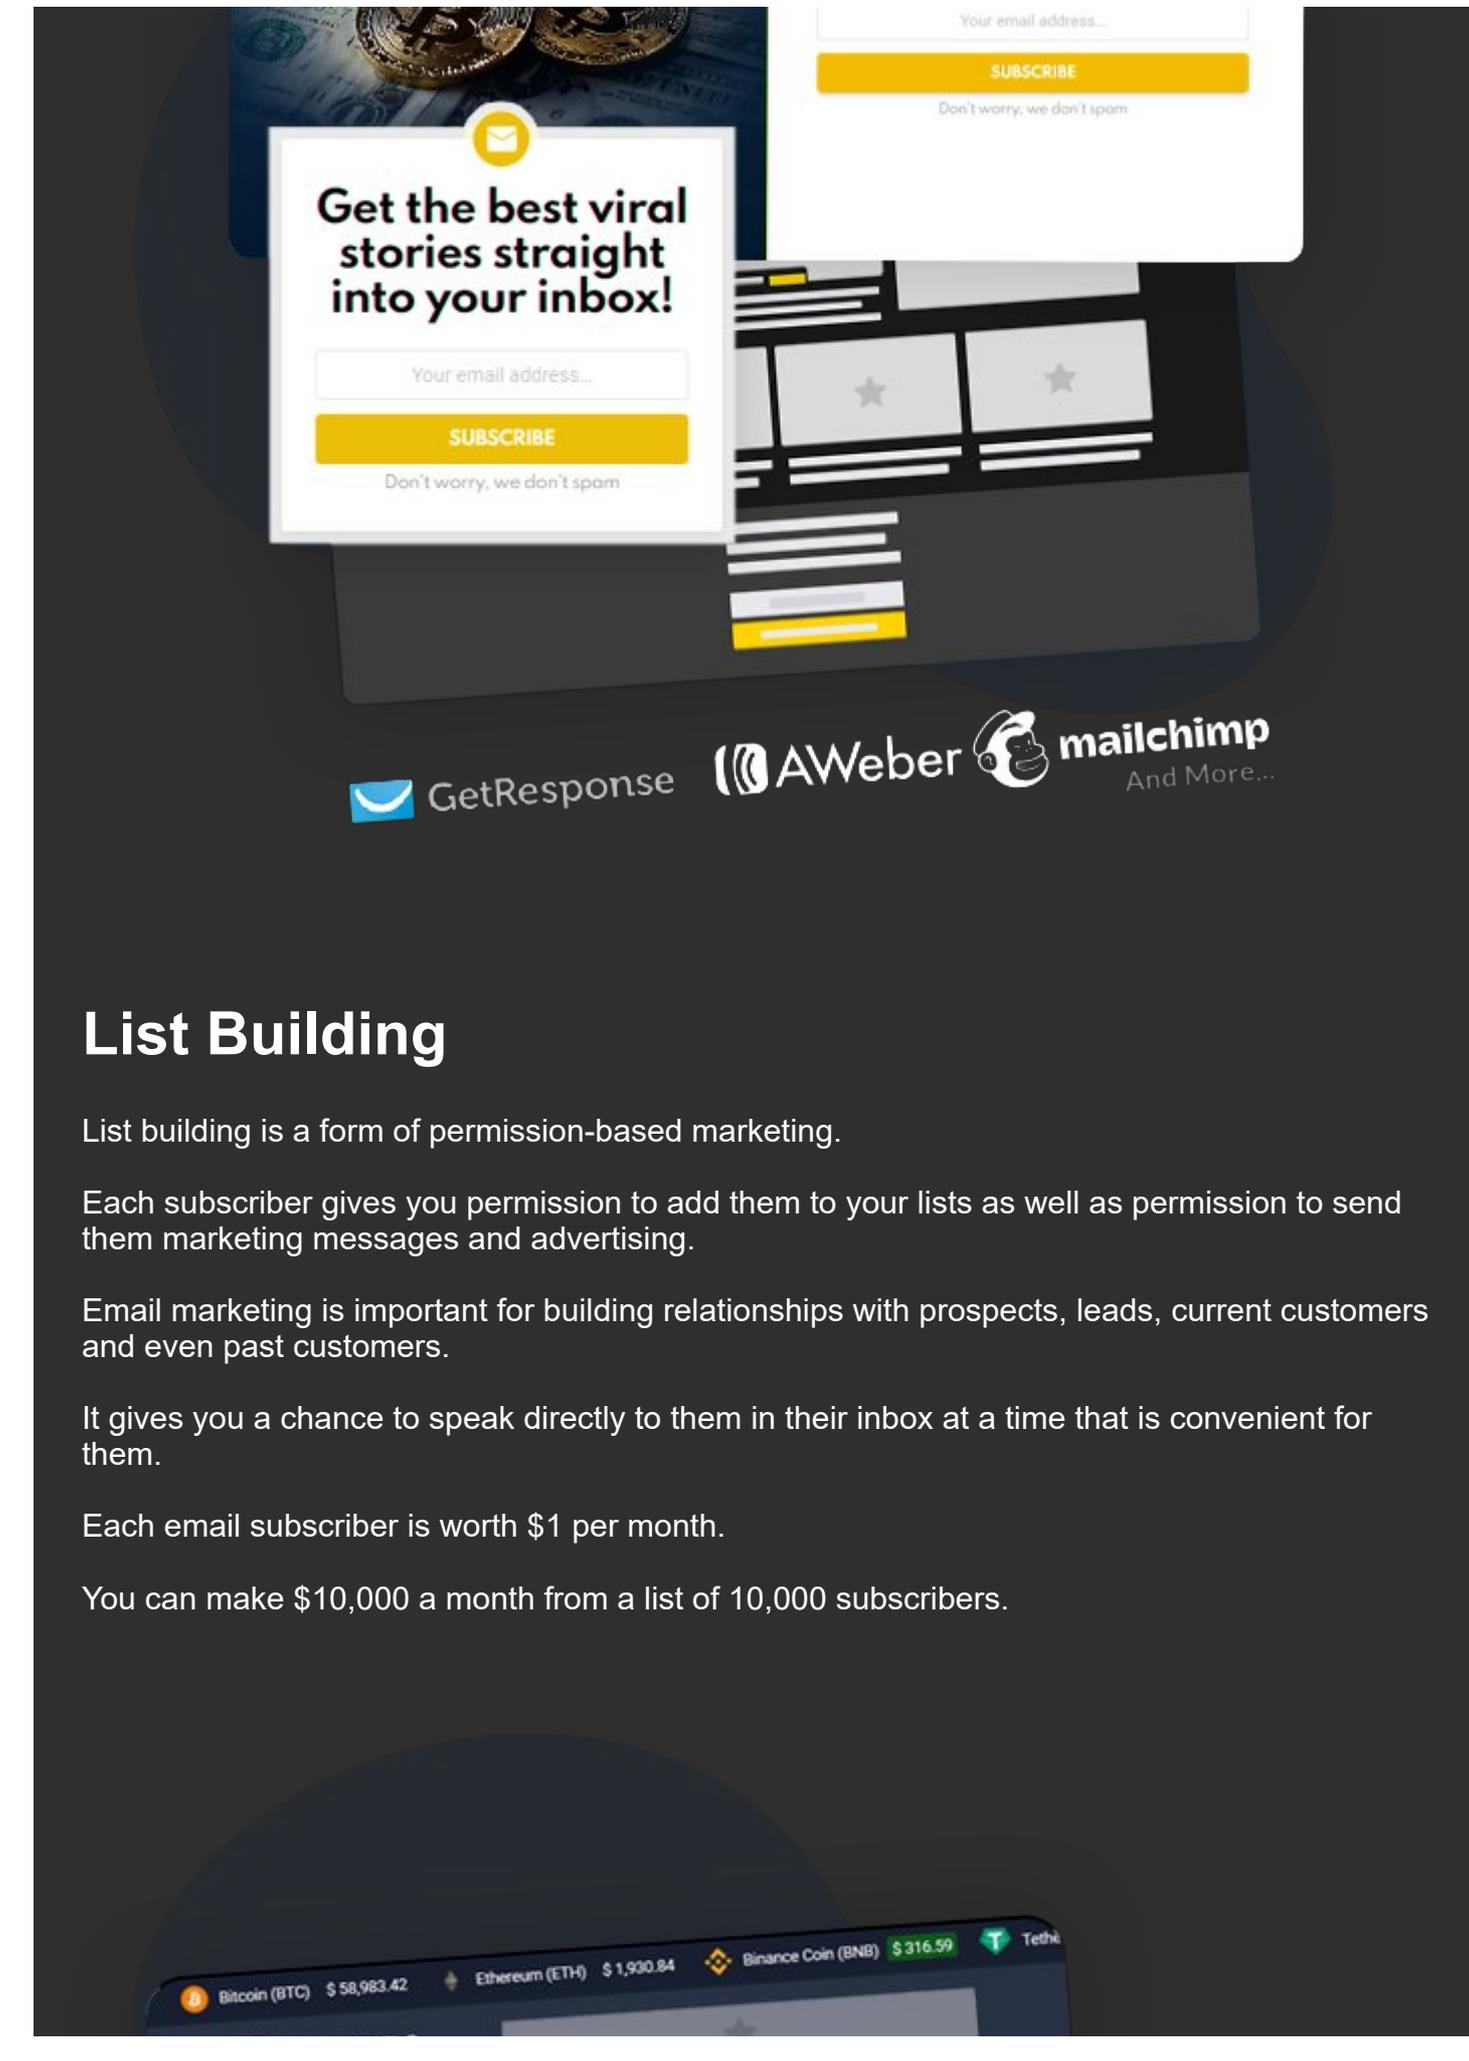

The percentage varies by category, but it is usually dependent on the order of five percent.

Affiliates earn a commission when a visitor to their website clicks a link to an Amazon product and buys it.

You will not have to pay to take part in the Amazon Affiliate program. It is entirely free of cost.

You can make from \$100 to \$25000 from an Amazon affiliate website.
You can earn more if there's a big number of visitors coming to your blog.

List Building

List building is a form of permission-based marketing.

Each subscriber gives you permission to add them to your lists as well as permission to send them marketing messages and advertising.

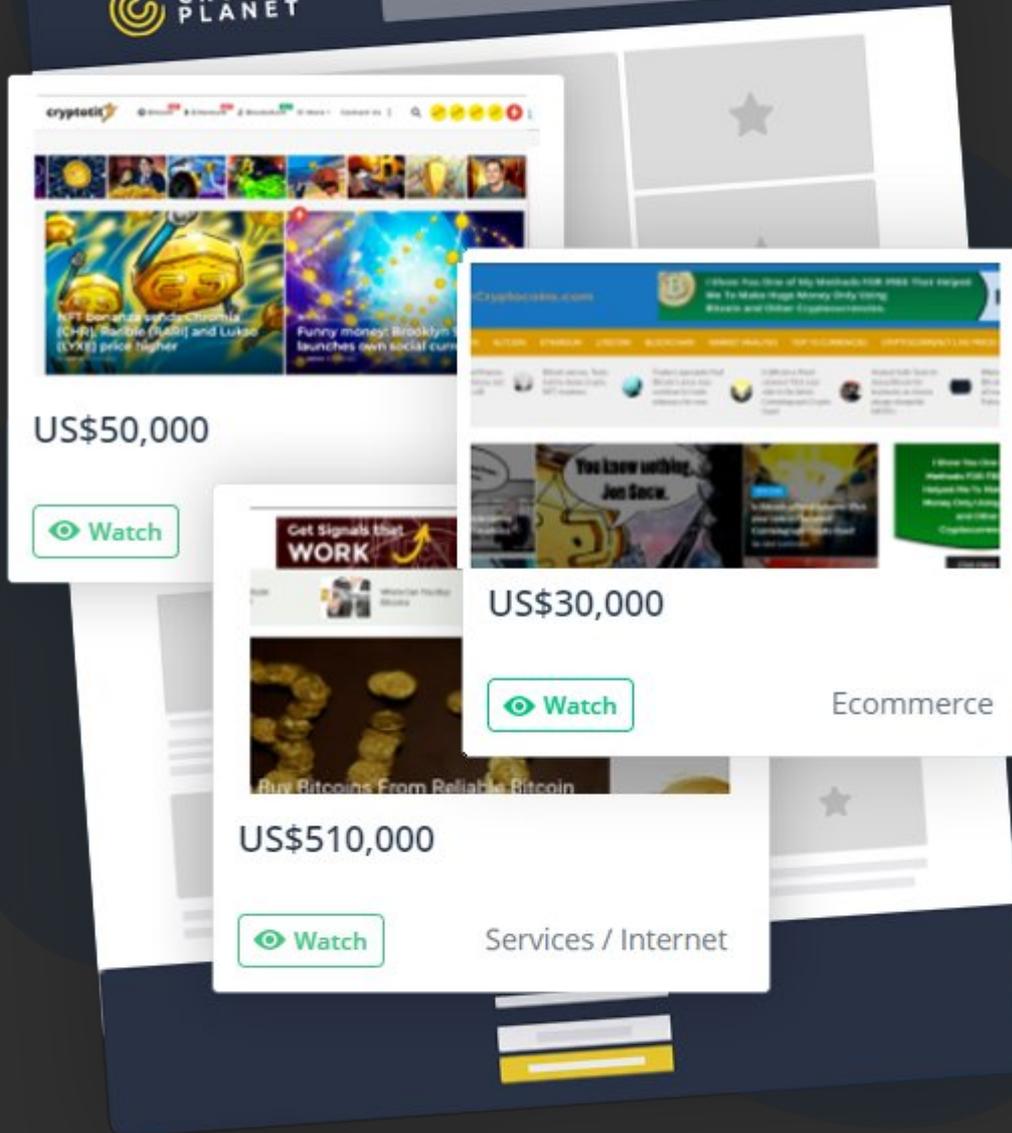

Email marketing is important for building relationships with prospects, leads, current customers and even past customers.

It gives you a chance to speak directly to them in their inbox at a time that is convenient for them.

Each email subscriber is worth \$1 per month.

You can make \$10,000 a month from a list of 10,000 subscribers.

Site Flipping Sales

The practice of selling and buying websites is called “website flipping”.

Through website flipping, the most valuable websites can even be sold for billions of dollars.

The sky's the limit!

Some people make only \$500 per month and some make more than \$5,000 per month flipping websites.

The amount of money you make depends on a variety of factors including the nature of the site. Some sites do well while some do not.

The buy sell website model is a proven business model and a highly profitable one too.
