

# Are you a woman interested in constructing a new career?

Women into Construction are partnering with HS2 Ltd, to provide an exciting opportunity to explore the diverse careers available within HS2 and related construction and engineering sectors. We are particularly interested in supporting and providing these opportunities to young female care leavers.

Four work placements are available and will be based in the Central Birmingham area. Placements will rotate around giving you experience of a number of occupations.

Women into Construction will provide the Level 1 Health & Safety and CSCS training required for your placement.

We are working towards work placements taking place 1 – 26 June and we will need you to commit for the full four weeks.

Women into Construction will continue to work with you after the placement to help you find employment.

## TO REGISTER FOR THE INFORMATION SESSION

please contact us on **07848 681113** or [steph.sheppard@women-into-construction.org](mailto:steph.sheppard@women-into-construction.org)
