Please help us to care for the afforestation area, the “West Swale” wetlands & its naturalized environment. The George Genereux Urban Regional Park is a dedication to Dr. Genereux, Saskatoon gold medal Olympian, radiologist and professor and is an honourable tribute to ecology and climate action as the city grows to a population of 1/2 million by 2032. Together let us restore the afforestation area to its naturalized wildlife habitat and enjoy this urban regional park!
