

Vital Blood Scan & support, an overview of the options

It should be natural to be Fit & Vital for life, but unfortunately this has not been the case for quite some time. According to a global survey done in 2015, only **4.3%** of the world's population is still vital. We expect this figure to have dropped further since 2020. In other words:

*"What **Know-How** does it take for you and your loved ones to regain ones Vitality(video)?"*

The men and women of the International Support Team are happy to share their knowledge, experience and "the adequate vitality solutions" with you. Below you will find the **"test & support options"** to make the best choice for you, with which you want to start your vitality journey:

1. Vital Blood Scan Zoom Version (VBS) incl.action plan. Holistic assessment of the vitality of body and mind, incl. analysis of the root cause(s) by just **1 drop of blood**. Even more unique is the indication of your future vitality, thus ideal as a preventive measure. The VBS is for young & old who want to optimise their vitality and energy levels. The VBS is also used as a starting/measuring point of therapy, training or coaching. Reporting is done in a ("if desired recorded") Zoom conversation where microscope photos are shown & explained. In a 2nd Zoom call, the action plan is discussed, after which a digital a. intake schedule and b. brief summary on which the plan is based is emailed. **Energy Exchange (EE) € 397,-**

1.a Vital Blood Scan 'Read Only' (VBS RO), incl.action plan, exclusive substantiation with microscope photos. Holistic assessment of the vitality of body and mind, based on a summary of initial findings by just **1 drop of blood** what is going on in your body. Ideal for a general holistic vitality check-up, especially for children and anyone wanting to optimise their vitality and energy levels. The initial findings together with the action plan is explained personally by your contact person followed up by email with; a) a digital report PDF, b) a simple intake schedule in pictures. **EE € 159,- (most popular option)**

2. Vital Blood Scan Xtra (VBS Xtra) 2 holistic body scans to go deep into what are the root cause(s) affecting the vitality of body & mind. Besides the Vital Blood Scan as described in 1 (body scan 1), the Bio-Resonance device (body scan 2) extensively tests what the imbalance(s) are to go deeper into the underlying cause(s). This information is used constructively in a step-by-step plan to optimise your vitality. In this option, you receive; a) a digital report of the microscope photos b) a comprehensive plan of action. See [video](#) (double test-scan). **EE VBS Xtra € 797,-.**

3. Vital Blood Check Scan The aim of this scan is to compare results with the first Vital Blood Scan. **Measuring = knowing** and this is what makes the Forever Vital journey unique. You know exactly what is going on "inside", because that **one drop of blood** is a **holistic representation of you as a human being**. No guesswork as to whether something works, but a well-founded structured measurable action plan whose results you can monitor yourself and that you learn in this process what really works. **EE Check Scan € 397,-.**
