GeoCache Clue

Bird's Eye View

Inside forests the adventurous find
Animals and birds of every kind
People, kids, families, invigorate...
Within my closed walls actuate
All those that wish to visit me.

Your hands are the key

To secrets untold

Will tiny birds angry scold?

Your mind will unlock the door
Perhaps, challenges yet are four

Hint: added clue on

The Legacy of Saskatoon's Secret Forest

In this 14-minute documentary, now available on maxTV Local on Demand Television channels 46/346 you will discover:

~Why a 326-acre afforestation area was named after the early global conservationist Richard St. Barbe Baker.

~How this "Man of the Trees" inspired environmental action and tree planting all over the world.

The YouTube version of the film launch has additional tributes from several conservation leaders who were inspired by Baker. Go to stbarbebaker.wordpress.com

Richard St. Barbe Baker Park

A new documentary available on maxTV Local on Demand Television channels 46/346. This prequel just in time to celebrate January 26 which is World Environmental Education Day <https://youtu.be/as4fYPXb8OA>

The story of 326 acres of farmland, planted to trees 50 years ago and forgotten, has been transformed into a popular park and its rich history uncovered.

Spotting Wildlife

Snowshoe Hare, White-tailed Jack Rabbit, Mule Deer, White-tailed Deer, American Red Squirrel and much more!
