

How we read the blood:

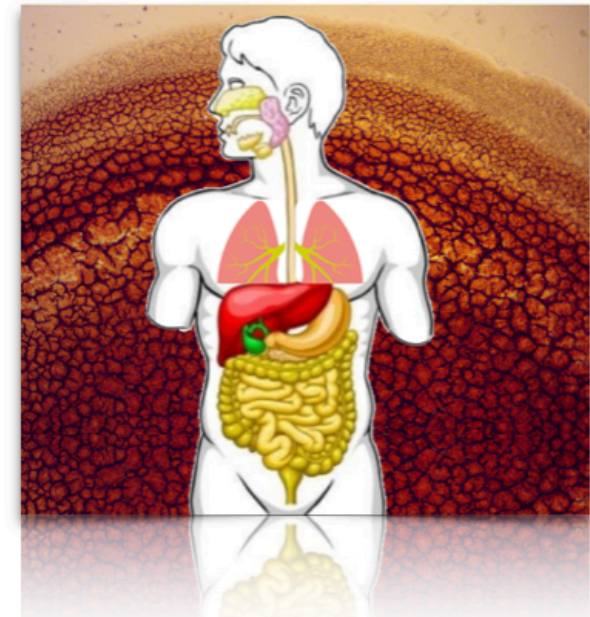

There are 6 layers/rings

Over 25 years of experience and monitoring through Bio-Resonance machine testing & practising foot reflexology has led to new perspectives compared to commonly taught professional blood readings.

As a result, we have developed a unique approach to vitality that you will not easily find anywhere else.

As is the case in for example foot reflexology or ear acupuncture techniques it is for thousand of years known that the human body is reflected in certain body parts. The body is similar positioned in the drop of blood.

The centre of the drop represents the gonad area and the edge of the drop represents the head.
