

Heavy metals & body foreign substances & ...

Heavy metals, body 'foreign' substances usually accompanied by parasites and fungi are seriously undermining our vitality and energy levels these days. These 'unusual' substances are 'toxins' to our body, especially when they reach our head. This leads to cell damage, dementia, Parkinson's, Alzheimer's, hormone imbalance, lung damage, circulatory problems, autoimmune diseases and even cancer. Remote frequency support phases out the harmful effects, allowing cells to recover. Duration approach depends partly on the degree of 'burden and symptoms'. Start approach is 21 days.

EE for 21 days is € 336,- excl. one time € 40 start-up
