<http://www.rd.com/slideshows/8-health-benefits-of-apple-cider-vinegar/>

**Health Tip of the Week:** Drink Apple Cider Vinegar "with the Mother". Cold viruses tend to put the body into an overly acidic state, which makes it that much more difficult for the immune system to fight disease but taking apple cider vinegar, a powerful alkalizing food, will help not only kill a cold, but also squash its miserable symptoms. Mixing a few table spoons of apple cider vinegar with warm water, honey and lemon and drinking the concoction several times a day will have you back up to health in no time!
