**'Standard license' definition - Use 1 song up to entire song length, either vocal and/or instrumental version in 1 project/video only. You can use the song multiple times in 1 project (ie. vocal version in beginning, instrumental version in the middle, a mix of vocal and instrumental version edited together etc.)**

\*\*\* 1 Standard license of 3 songs - You can or you don't have to use all 3 songs in 1 project.

But if you use all 3 songs in 1 project/video, then you have used up all your licenses.

### Our Advantages and Benefits

- You are licensing music that is by top notch Christian Artists whose music is filled with the Holy Spirit!
- One Standard license gets you both instrumental and vocal versions of the song. But you can only use in 1 project.
- Our Standard licenses include use of up to the whole song length. Not just 30 seconds!
- Standard licenses are for perpetual use (forever), except for some custom quotes.
- Standard licenses are for worldwide uses.
- Our Standard licenses cover both publishing and master rights, as well as unlimited streaming rights.
- Our Standard licenses grant you to make unlimited physical copies to give away for free. But you can only sell 10 copies for sale. If you want to sell more than 10 copies for sale, please contact us for a custom quote.

**Considering all of the above, our prices are actually much lower than other high quality licensing companies, and even some stock music and lower quality licensing companies!**
