

## FLAT SWIVEL

Versatile and practical, the flat swivel flash drive is the ideal promotional item for the modern age. Its' my favorite swivel (there I said it) for a few reasons. It costs the same as the regular swivel, it looks great laser engraved with that shiny silver logo against the darker color backdrop, it has a larger imprint area, looks slimmer and more sleek, AND it has that cool split ring at the top to connect to key rings and lanyards.
