

THE LIGHTER 3.0

NEW!

Don't be fooled, there is actually zero flame associated with this drive. It just has a really cool magnetic flip top that is a lot of fun to play with. It is a highspeed 3.0 USB drive that has top of the line read/write speeds. Its sleek metal design is tough to put down. Hours of enjoyment just flipping the cap on and off like an old school Zippo® lighter. If you can't put it down, neither can your client. Great branding for your next marketing campaign.
