### 2. GENERAL INFORMATION

Corrective Action Plan: An underfunded local unit of government shall develop and submit for approval a corrective action plan for the local unit of government. The local unit of government shall determine the components of the corrective action plan. This Corrective Action Plan shall be submitted by any local unit of government with at least one defined benefit pension retirement system that has been determined to have an underfunded status. Underfunded status for a defined benefit pension system is defined as being less than 60% funded according to the most recent audited financial statements, and, if the local unit of government is a city, village, township, or county, the annually required contribution for all of the defined benefit pension retirement systems of the local unit of government is greater than 10% of the local unit of government's annual governmental fund revenues, based on the most recent fiscal year.

**Due Date**: The local unit of government has **180 days from the date of notification** to submit a corrective action plan to the Municipal Stability Board (the Board). The Board may extend the 180-day deadline by up to an additional 45 days if the local unit of government submits a reasonable draft of a corrective action plan and requests an extension.

Filing: Per Sec. 10(1) of PA 202 of 2017 (the Act), this Corrective Action Plan must be approved by the local government's administrative officer and its governing body. You must provide proof of your governing body approving this Corrective Action Plan and attach the documentation as a separate PDF document. Per Sec. 10(4) of the Act, failure to provide documentation that demonstrates approval from your governing body will result in a determination of noncompliance by the Board.

The completed plan must be submitted via email to Treasury at LocalRetirementReporting@michigan.gov for review by the Board. If you have multiple underfunded retirement systems, you are required to complete separate plans and send a separate email for each underfunded system. Please attach each plan as a separate PDF document in addition to all applicable supporting documentation.

The subject line of the email(s) should be in the following format: **Corrective Action Plan-2017, Local Unit Name, Retirement System Name** (e.g. Corrective Action Plan-2017, City of Lansing, Employees' Retirement System Pension Plan). Treasury will send an automatic reply acknowledging receipt of the email. Your individual email settings must allow for receipt of Treasury's automatic reply. This will be the only notification confirming receipt of the application(s).

**Municipal Stability Board:** The Municipal Stability Board shall review and vote on the approval of a corrective action plan submitted by a local unit of government. If corrective action is approved, the Board will monitor the corrective action for the following two years, and the Board will report on the local unit of government's compliance with the Act not less than every two years.

**Review Process:** Following receipt of the email by Treasury, the Board will accept the corrective action plan submission at the next scheduled meeting of the Board. The Board shall then approve or reject the corrective action plan within 45 days from the date of the meeting.

Considerations for Approval: A successful corrective action plan will demonstrate the actions for correcting underfunded status as set forth in Sec. 10(7) of the Act (listed below), as well as any additional solutions to address the underfunded status. Please also include steps already taken to address your underfunded status as well as the date prospective actions will be taken. A local unit of government may also include in its corrective action plan, a review of the local unit of government's budget and finances to determine any alternative methods available to address its underfunded status. A corrective action plan under this section may include the development and implementation of corrective options for the local unit of government to address its underfunded status. The corrective options as described in Sec. 10(7) may include, but are not limited to, any of the following:

- (i) Closing the current defined benefit plan.
- (ii) Implementing a multiplier limit.
- (iii) Reducing or eliminating new accrued benefits.
- (iv) Implementing final average compensation standards.

Implementation: The local unit of government has up to 180 days after the approval of a corrective action plan to begin to implement the corrective action plan to address its underfunded status. The Board shall monitor each underfunded local unit of government's compliance with this act and any corrective action plan. The Board shall adopt a schedule, not less than every 2 years, to certify that the underfunded local unit of government is in substantial compliance with the act. If the Board determines that an underfunded local unit of government is not in substantial compliance under this subsection, the Board shall within 15 days provide notification and report to the local unit of government detailing the reasons for the determination of noncompliance with the corrective action plan. The local unit of government has 60 days from the date of the notification to address the determination of noncompliance.

### 3. DESCRIPTIONS OF PRIOR ACTIONS

Prior actions are separated into three categories below: System Design Changes, Additional Funding, and Other Considerations. Please provide a brief description of the prior actions implemented by the local government to address the retirement system's underfunded status within the appropriate category section. Within each category are sample statements that you may choose to use to indicate the changes to your system that will positively affect your funded status. For retirement systems that have multiple divisions, departments, or plans within the same retirement system, please indicate how these changes impact the retirement **system** as a whole.

Please Note: If applicable, prior actions listed within your waiver application(s) may also be included in your corrective action plan.

Please indicate where in the attached supporting documentation these changes are described and the impact of those changes (i.e. what has the local unit of government done to improve its underfunded status, and where can we find the proof of these changes in the supporting documentation?).

**Note:** Please provide the name of the system impacted, the date you made the change, the relevant page number(s) within the supporting documentation, and the resulting change to the system's funded ratio.

### **Category of Prior Actions:**

System Design Changes - System design changes may include the following: Lower tier of benefits for new hires, final average compensation limitations, freeze future benefit accruals for active employees in the defined benefit system, defined contribution system for new hires, hybrid system for new hires, bridged multiplier for active employees, etc.

**Sample Statement**: The system's multiplier for current employees was lowered from 2.5X to 2X for the **General Employees' Retirement System** on **January 1**, **2017**. On page **8** of the attached actuarial supplemental valuation, it shows our funded ratio will be **60%** by fiscal year **2020**.

Multiple system design changes have been made to the City's Municipal Employees' Retirement System. These changes are summarized on attachment 7a (along with the applicable supporting documents for each change). On page 14 of the attached AAV 12/31/17 (Attachment 2a), it shows our funded ratio will be 60% by fiscal year 2025.

Additional Funding – Additional funding may include the following: Voluntary contributions above the actuarially determined contribution, bonding, millage increases, restricted funds, etc.

**Sample Statement:** The local unit provided a lump sum payment of \$1 million to the **General Employees' Retirement System** on **January 1, 2017**. This lump sum payment was in addition to the actuarially determined contribution (ADC) of the system. The additional contribution will increase the retirement system's funded ratio to **61% by 2025**. Please see page **10** of the attached enacted budget, which highlights this contribution of \$1 million.

The City of Ironwood has provided extra contributions above the actuarially determined contribution for each of the past three (3) years totaling \$776,600.29 (Attachments 4a, 4b and 4c). On page 14 of the attached AAV 12/31/17 (Attachment 2a), it shows our funded ratio will be 60% by fiscal year 2025. The payment made on June 29, 2018 is not factored into this calculation. This payment should help increase the retirement system's funded ratio to 60% prior to fiscal year 2025.

☑ Other Considerations – Other considerations may include the following: outdated Form 5572 information, actuarial assumption changes, amortization policy changes, etc.

**Sample Statement:** The information provided on the Form 5572 from the audit used actuarial data from **2015**. Attached is an updated actuarial valuation for **2017** that shows our funded ratio has improved to **62%** as indicated on page **13**.

The City of Ironwood's pension plan is administered by Municipal Employees' Retirement System (MERS), which provides a high level of effective plan administration. MERS performed an experience study in 2015 and changed our amortization policy from a rolling amortization period to a fixed amortization period. The MERS funding policy uses a level-percent-of-payroll amortization method. On page 14 of the attached AAV 12/31/17 (Attachment 2a), it shows our funded ratio will be 60% by fiscal year 2025 and 100% by fiscal year 2039.

### 4. DESCRIPTION OF PROSPECTIVE ACTIONS

The corrective action plan allows you to submit a plan of prospective actions which are separated into three categories below: System Design Changes, Additional Funding, and Other Considerations. Please provide a brief description of the additional actions the local government is planning to implement to address the retirement system's underfunded status within the appropriate category section. Within each category are sample statements that you may choose to use to indicate the changes to your system that will positively affect your funded status. For retirement systems that have multiple divisions, departments, or plans within the same retirement system, please indicate how these changes impact the retirement system as a whole.

Please indicate where in the attached supporting documentation these changes are described and the impact of those changes (i.e. what will the local unit of government do to improve its underfunded status, and where can we find the proof of these changes in the supporting documentation?).

| Category of Prospective Actions:  |
|---|
| System Design Changes - System design changes may include the following: Lower tier of benefits for new hires, final average compensation limitations, freeze future benefit accruals for active employees in the defined benefit system, defined contribution system for new hires, hybrid system for new hires, bridged multiplier for active employees, etc.   |
| <b>Sample Statement</b> : Beginning with <b>summer 2018</b> contract negotiations, the local unit will seek to lower the system's multiplier for current employees from 2.5X to 2X for the <b>General Employees' Retirement System</b> . On page <b>8</b> of the attached actuarial supplemental valuation, it shows our funded ratio would be <b>60%</b> funded by <b>fiscal year 2020</b> if these changes were adopted and implemented by <b>fiscal year 2019</b> .  |
|   |
| Additional Funding - Additional funding may include the following: voluntary contributions above the actuarially determined contribution, bonding, millage increases, restricted funds, etc.  |
| Sample Statement: Beginning in fiscal year 2019, the local unit will provide a lump sum payment of \$1 million to the General Employees' Retirement System. This lump sum payment will be in addition to the actuarially determined contribution (ADC) of the system. The additional contribution will increase the retirement system's funded ratio to 61% by 2025. Please see page 10 of the attached enacted budget, which highlights this contribution of \$1 million. Please see page 12 of the attached supplemental actuarial valuation showing the projected change to the system's funded ratio with this additional contribution. |
| ■ Other Considerations – Other considerations may include the following: outdated Form 5572 information,  |
| ✓ Other Considerations – Other considerations may include the following: outdated Form 5572 information, actuarial assumption changes, amortization policy changes, etc.  |
| <b>Sample Statement:</b> Beginning in <b>fiscal year 2019</b> , the local unit will begin amortizing the unfunded portion of the pension liability using a <b>level-dollar amortization method over a closed period of 10 years</b> . This will allow the retirement system to reach a funded status of <b>62%</b> by <b>2022</b> as shown in the attached actuarial analysis on page <b>13</b> .   |
| The City levies a millage to fund our annual actuarially determined contribution for our Public Safety divisions under Public Act 345 of 1937. This millage rate is conservatively calculated each year to ensure sufficient funding. As a result, the City is able to make the annual required contribution, as well as an additional contribution, each fiscal year.  |
| 5. CONFIRMATION OF FUNDING  |
| Please check the applicable answer:   |
| Do the corrective actions listed in this plan allow for (insert local unit name) City of Ironwood to make, at a minimum, the annual required contribution payment for the defined benefit pension system according to your long-term budget forecast?   |
| <ul> <li>✓ Yes</li> <li>☐ No</li> <li>If No, Explain:</li> </ul>  |

Documentation should be attached as a .pdf to this Corrective Action Plan. The documentation should detail the corrective action plan that would be implemented to adequately address the local unit of government's underfunded status. Please check all documents that are included as part of this plan and attach in successive order as provided below:

**Naming convention:** when attaching documents please use the naming convention shown below. If there is more than one document in a specific category that needs to be submitted, include a, b, or c for each document. For example, if you are submitting two supplemental valuations, you would name the first document "Attachment 2a" and the second document "Attachment 2b".

| Naming Convention                                      | Type of Document   |
|--|--|

### **Ironwood City Commission Meeting Minutes**

A Regular Meeting of the Ironwood City Commission was held on November 12, 2018 at 5:30 P.M. in the City Commission Chambers, Second Floor of the Municipal Memorial Building in the City of Ironwood.

A. Mayor Pro Tem Mildren called the meeting to order at 5:30 P.M.

Mayor Pro Tem Mildren requested the City Commission excuse Mayor Burchell and Commissioner Cayer from tonight's meeting.

*Motion* was made by Semo, seconded by Corcoran and carried to excuse Mayor Burchell and Commissioner Cayer from tonight's meeting.

B. Recording of the Roll.

PRESENT: Commissioner Corcoran, Semo, and Mayor Pro Tem Mildren. ABSENT: Commissioner Cayer (excused) and Mayor Burchell (excused).

Mayor Pro Tem Mildren took a moment of silence to remember, thank, and show gratitude for our Veterans on Veterans Day.

- C. Approval of the Consent Agenda.\*
- \*1) Approval of Minutes Regular City Commission Meeting Minutes of October 22nd.
- \*2) Review and Place on File:
  - a. Carnegie Library Meeting Minutes of September 28th.
  - b. Ironwood Planning Commission Meeting Minutes of October 4th, 2018.
  - c. Parks and Recreation Committee Meeting Minutes of October 1st, 2018.
  - d. Downtown Development Authority Meeting Minutes of August 23rd, 2018.
  - e. Economic Development Corporation Meeting Minutes of October 3rd, 2018.

**Motion** was made by Corcoran, seconded by Semo, to approve the consent agenda as presented. Unanimously passed by roll call vote.

D. Approval of the Agenda

**Motion** was made by Corcoran, seconded by Semo, and carried to approve the agenda as presented.

E. Citizens wishing to address the Commission on Items on the Agenda. (Three Minute Limit).

There were none.

F. Citizens wishing to address the Commission on Items not on the Agenda (Three Minute Limit)

Micky Valley, of 160 Cloverland Drive addressed the City Commission noting that he would like to open a Marihuana Micro Building in that area.

G. AUDIENCE: Kerry Noble, Commercial Field Specialist, CLEAResult (RE: Rebate programs for Xcel Electric and Gas).

Kerry Noble, Commercial Field Specialist for Efficiency United, addressed the Ironwood City Commission regarding rebate programs for Xcel Electric and Gas. He stated since 2009, when Public Act 295 went into effect, Xcel Energy was to save customers money on gas and electric. He further mentioned some of the types of savings such as LED Street Lights, boilers, annual tune ups, and many other projects that Efficiency United could help with. Additional comments were received regarding the many programs.

### **OLD BUSINESS**

H. Discuss and Consider approving extension of Lease Agreement with the Social Security Administration and authorize Mayor Pro Tem and City Clerk to sign same.

Motion was made by Semo, seconded by Corcoran, to approve the extension of the Lease Agreement with the Social Security Administration and authorize the Mayor Pro Tem and City Clerk to sign same. Unanimously passed by roll call vote.

I. Discuss and consider approving the Corrective Action Plan for the City's Defined Benefit Pension Retirement System.

Motion was made by Semo, seconded by Corcoran, to approve the Corrective Action Plan for the City's Defined Benefit Pension Retirement System. Unanimously passed by roll call vote.

### **NEW BUSINESS**

J. Discuss and Consider request from the Gogebic County Fair/Friends of the Fair for a "Special Event Water Rate" for the 2018/2019 Snowmobile Olympus being held at the Gogebic County Fair Grounds on December 29, 2018, January 5th & 6th, 2019, and February 16th & 17th, 2019.

**Motion** was made by Corcoran, seconded by Semo, to approve the "Special Event Water Rate" for the 2018/2019 Snowmobile Olympus being held at the Gogebic County Fair Grounds on December 29, 2018, January 5<sup>th</sup> & 6<sup>th</sup>, 2019, and February 16<sup>th</sup> & 17<sup>th</sup>, 2019. Unanimously passed by roll call vote.

K. Discuss and Consider the sale of a portion of surplus property to Andrew & Jean Saari, of 123 Luxmore Street in the amount of \$2,217.50.

Motion was made by Semo, seconded by Corcoran, to authorize a portion of the surplus property to Andrew & Jean Saari of 123 Luxmore Street with all fees and costs associated with the sale to be paid by buyer. Unanimously passed by roll call vote.

L. Discuss and Consider declaring four (4) used grader tires surplus and selling them to the Iron County non-profit ATV/UTV Association for \$1.00.

Motion was made by Semo, seconded by Corcoran, to declare four (4) used grader tires surplus and sell them to the Iron County non-profit ATV/UTV Association for \$1.00. Unanimously passed by roll call vote.

M. Discuss and Consider approving a 5-year agreement with Axon for Public Safety Body Cameras in the amount of \$12,182.40/yr.

**Motion** was made by Semo, seconded by Corcoran, to approve the 5-year agreement with Axon for Public Safety Body Cameras in the amount of \$12,182.40/yr. Unanimously passed by roll call vote.

N. Manager's Report.

City Manager Scott B. Erickson verbally gave the Manager's report noting the following items:

- \*He gave praise to the Department of Public Works (DPW) for cleaning up the streets during and after the recent storm.
- \*DPW will be pulling snow at 1:00 a.m. tomorrow morning.
- \*Jack Frost Parade will be Saturday, December 1st.
- \*Frost Friday will be Friday, November 30th to coincide with the Jack Frost Festivities.
- \*Santa's Headquarters is scheduled for December 5<sup>th</sup> from 9:30 a.m. 1:00 p.m. at the Memorial Building.
- \*The downtown tree lighting ceremony will be Wednesday, November 14<sup>th</sup> from 6:00 p.m. 7:00 p.m.
- \*The City of Ironwood should be notified sometime in December on the DNR Trust Fund Grant Applications recently submitted.

### O. Other Matters.

Mayor Pro Tem Mildren thanked all the groups that turn out to help over 400 families during the Santa's Headquarters. He wanted to note two (2) special groups such as Ojibway Corrections who gave a check for \$700 along with the Marine group.

### P. Adjournment.

*Motion* was made by Semo, seconded by Corcoran and carried to adjourn the meeting at 6:05 P.M.

Jim Mildren, Mayor Pro Tem

Karen M. Gullan, City Clerk

### STATE OF MICHIGAN ) ss COUNTY OF GOGEBIC)

I hereby certify that the foregoing is a true and complete copy of the minutes from the Monday, November 12, 2018 Ironwood City Commission Meeting, and that said meeting was conducted and public notice of said meeting was given pursuant to and in full compliance with the Open Meetings Act, being Act 267, Public Acts of Michigan, 1976, and that the minutes of said meeting were kept and will be or have been made available as required by said Act.

Haren M. Gullan, City Clerk

### Attachment 2a

### MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF MICHIGAN

ANNUAL ACTUARIAL VALUATION REPORT DECEMBER 31, 2017 IRONWOOD, CITY OF (2706)

Spring, 2018

Ironwood, City of

In care of: Municipal Employees' Retirement System of Michigan 1134 Municipal Way Lansing, Michigan 48917

This report presents the results of the Annual Actuarial Valuation, prepared as of December 31, 2017. The report includes the determination of liabilities and contribution rates resulting from the participation of Ironwood, City of (2706) in the Municipal Employees' Retirement System of Michigan ("MERS"). MERS is an independent, professional retirement services company that was created to administer retirement plans for Michigan municipalities on a not-for-profit basis. This report contains the minimum actuarially determined contribution requirement, in alignment with the MERS Plan Documents, funding policy and Michigan Constitution. Ironwood, City of is responsible for the employer contributions needed to provide MERS benefits for its employees and former employees under the Michigan Constitution and the MERS Plan Document.

The purpose of the December 31, 2017 annual actuarial valuation is to:

- Measure funding progress
- Establish contribution requirements for the fiscal year beginning July 1, 2019
- Provide actuarial information in connection with applicable Governmental Accounting Standards Board (GASB) statements

This valuation report should not be relied upon for any other purpose. Reliance on information contained in this report by anyone for anything other than the intended purpose could be misleading.

The valuation uses financial data, plan provision data, and participant data as of December 31, 2017 furnished by MERS. In accordance with Actuarial Standards of Practice No. 23, the data was checked for internal and year to year consistency as well as general reasonableness, but was not otherwise audited. CBIZ Retirement Plan Services does not assume responsibility for the accuracy or completeness of the data used in this valuation.

The actuarial assumptions and methods are adopted by the MERS Retirement Board, and are reviewed every five years in an Experience Study. The most recent study was completed in 2015. Please refer to the division-specific assumptions described in table(s) in this report, and to the Appendix on the MERS website at:

www.mersofmich.com/Portals/0/Assets/Resources/AAV-Appendix/MERS-2017AnnualActuarialValuation-Appendix.pdf.

The actuarial assumptions used for this valuation produce results that we believe are reasonable.

To the best of our knowledge, this report is complete and accurate, was prepared in conformity with generally recognized actuarial principles and practices, with the Actuarial Standards of Practice issued by the Actuarial Standards Board, and is in compliance with Act No. 220 of the Public Acts of 1996, as amended, and the MERS Plan Document as revised. All of the undersigned are members of the American Academy of Actuaries (MAAA), and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. The Retirement Board of the Municipal Employees' Retirement System of Michigan confirms that the System provides for payment of the required employer contribution as described in Section 20m of Act No. 314 of 1965 (MCL 38.1140m).

This information is purely actuarial in nature. It is not intended to serve as a substitute for legal, accounting or investment advice.

This report was prepared at the request of the Retirement Board and may be provided only in its entirety by the municipality to other interested parties (MERS customarily provides the full report on request to associated third parties such as the auditor for the municipality). CBIZ Retirement Plan Services is not responsible for the consequences of any unauthorized use.

You should notify MERS if you disagree with anything contained in the report or are aware of any information that would affect the results of the report that have not been communicated to us. If you have reason to believe that the plan provisions are incorrectly described, that important plan provisions relevant to this valuation are not described, that conditions have changed since the calculations were made, that the information provided in this report is inaccurate or is in anyway incomplete, or if you need further information in order to make an informed decision on the subject matter in this report, please contact your Regional Manager at 1.800.767.MERS (6377).

Sincerely,

Cathy Nagy, MAAA, FSA Jim Koss, MAAA, ASA Curtis Powell, MAAA, EA

### **Executive Summary**

### **Funded Ratio and Required Employer Contributions**

The MERS Defined Benefit Plan is an agent multiple-employer plan, meaning that assets are pooled for investment purposes but separate accounts are maintained for each individual employer. Each municipality is responsible for their own plan liabilities; MERS does not borrow from one municipality's account to pay for another.

The funded ratio of a plan is the percentage of the dollar value of the accrued benefits that is covered by the actuarial value of assets.

### Your Funded Ratio:

|              | 12/31/2017 <sup>*</sup> | 12/31/2016 |
|--------------|-------------------------|------------|
| Funded Ratio | 52%                     | 51%        |

<sup>\*</sup> Reflects assets from Surplus divisions, if any.

Michigan Law requires that pension plans be pre-funded, meaning money is set aside now to pay for future benefits. Pension plans are usually funded by employer and employee contributions, and investment income.

How quickly a plan attains the 100% funding goal depends on many factors such as:

- The current funded ratio
- The future experience of the plan
- The amortization period

It is more important to look at the trend in the funded ratio over a period of time than at a particular point in time.

### **Your Required Employer Contributions:**

Your computed employer contributions are shown in the following table. Employee contributions, if any, are in addition to the computed employer contributions. Changes to the assumptions and methods based on the 2015 Experience Study were first reflected in the December 31, 2015 valuations. The impact of these changes is being phased-in over a 5 year period. The phase-in allows the employer to spread the impact of the new assumptions over 5 fiscal years. This valuation reflects the third year of the phase-in.

Your minimum required contribution is the amount in the "Phase-in" columns. By default, MERS will invoice you the phased-in contribution amount, but strongly encourages you to contribute more than the minimum required contribution. If for 2018 your municipality is making employer contributions based on rates without the phase-in applied, contact MERS to ensure the No Phase-in rate is used again for 2019 and not the defaulted phase-in rates.

The employer may contribute more than the minimum required contributions, as these additional contributions will earn investment income and may result in lower future contribution requirements. Employers making contributions in excess of the minimum requirements may elect to apply the excess contribution immediately to a particular division, or segregate the excess into one or more of what MERS calls "Surplus" divisions. An election in the first case would immediately reduce any unfunded accrued liability and lower the amortization payments throughout the remaining amortization period. An election to set up Surplus divisions would not immediately lower future contributions, however the assets from the Surplus divisions could be transferred to an unfunded division in the future to reduce the unfunded liability in future years, or to be used to pay all or a portion of the minimum required contribution in a future year. For purposes of this report, the assets in any Surplus division have been included in the municipality's total assets, unfunded accrued liability and funded status, however, these assets are not used in calculating the minimum required contribution.

### MERS strongly encourages employers to contribute more than the minimum contribution shown above.

Assuming that experience of the plan meets actuarial assumptions:

• To accelerate to a 100% funding ratio in 10 years, estimated monthly employer contributions for the fiscal year beginning in 2019 for the entire employer would be \$113,656, instead of \$71,349.

If you are interested in making additional contributions, please contact MERS and they can assist you with evaluating your options.

### **How and Why Do These Numbers Change?**

In a defined benefit plan, contributions vary from one annual actuarial valuation to the next as a result of the following:

- Changes in benefit provisions (see Table 2)
- Changes in actuarial assumptions and methods (see the <u>Appendix</u>)
- Experience of the plan (investment experience and demographic experience); this is the difference between actual experience of the plan and the actuarial assumptions. For example:
  - o Lower actual investment returns would result in higher required employer contributions, and vice-versa.

- o Smaller than assumed pay increases would lower required employer contributions.
- Reductions in the number of active employees would lower required contribution dollars, but would usually increase the contribution rate expressed as a percentage of (the now lower) payroll.
- o Retirements at earlier ages than assumed would usually increase required employer contributions.
- o More non-vested terminations of employment than assumed would decrease required contributions.
- o More disabilities or survivor (death) benefits than assumed would increase required contributions.
- Longer lifetimes after retirement than assumed would increase required employer contributions.

Actuarial valuations do not affect the ultimate cost of the plan; the benefit payments (current and future) determine the cost of the plan. Actuarial valuations only affect the timing of the contributions into the plan. Because assumptions are for the long term, plan experience will not match the actuarial assumptions in any given year (except by coincidence). Each annual actuarial valuation will adjust the required employer contributions up or down based on the prior year's actual experience.

### **Comments on Investment Return Assumption and Asset Smoothing**

A defined benefit plan is funded by employer contributions, participant contributions, and investment earnings. Investment earnings have historically provided **more than half** of the funding. The larger the share of benefits being provided from investment returns, the smaller the required contributions, and vice versa. Determining the contributions required to prefund the promised retirement benefits requires an assumption of what investment earnings are expected to add to the fund over a long period of time. This is called the **Investment Return Assumption**.

The MERS Investment Return Assumption is **7.75%** per year. This, along with all of our other actuarial assumptions, is reviewed every five years in an Experience Study that compares the assumptions used against actual experience and recommends adjustments if necessary. If your municipality would like to explore contributions at lower investment return assumptions, please review the budget projection scenarios later in this report.

To avoid dramatic spikes and dips in annual contribution requirements due to short term fluctuations in asset markets, MERS applies a technique called **asset smoothing**. This spreads out each year's investment gains or losses over the prior year and the following four years. This smoothing method is used to determine your actuarial value of assets (valuation assets), which is then used to determine both your funded ratio and your required contributions. The (smoothed) **actuarial rate of return for 2017 was 6.08%, while the actual market rate of return was 13.07%**. To see historical details of the market rate of return, compared to the smoothed actuarial rate of return, refer to this report's <u>Appendix</u>, or visit our <u>Defined Benefit resource page</u> on the MERS website.

As of December 31, 2017 the actuarial value of assets is 101% of market value due to asset smoothing. This means that meeting the actuarial assumption in the next few years will require average annual market returns that exceed the 7.75% investment return assumption, or contribution requirements will continue to increase.

If the December 31, 2017 valuation results were based on market value instead of the actuarial value:

- The funded percent of your entire municipality would be 51% (instead of 52%); and
- Your total employer contribution requirement for the fiscal year starting July 1, 2019 would be \$865,464 (instead of \$856,188).

### **Risk Characteristics of Defined Benefit Plans**

It is important to understand that Defined Benefit retirement plans, the plan sponsor, and the plan participants are exposed to certain risks. While risks cannot be eliminated entirely, they can be managed through various strategies. Below are a few examples of risk (this is not an all-inclusive list):

- Economic investment return, wage inflation, etc.
- Demographic longevity, disability, retirement, etc.
- Plan Sponsor and Employees contribution volatility, attract/retain employees, etc.

The MERS Retirement Board adopts certain assumptions and methods to manage the economic and demographic risks, and the contribution volatility risks. For example, the investment risk is the largest economic risk and is managed by having a balanced portfolio and a clearly defined investment strategy. Demographic risks are managed by preparing special studies called experience studies on a regular basis to determine if the assumptions used are reasonable compared to the experience. An Experience Study is completed every five years to review the assumptions and methods. The next Experience Study will be completed in 2020.

Risk can also be managed through a plan design that provides benefits that are sustainable in the long run.

The Actuarial Standards Board has issued Actuarial Standards of Practice (ASOP) No. 51. This standard will be effective for any actuarial work with a measurement date on or after November 1, 2018. This means, the December 31, 2018 and later annual actuarial valuation reports for MERS will have to comply with this standard. This standard will require the actuary to identify risks that, in the actuary's professional judgment may significantly impact the plan's future financial condition. The actuary will have to assess the potential effects of the identified risks on the plan's future financial condition. The assessment may or may not be based on numerical calculations. However, the assessment should reflect the specifics of the plan (i.e. funded status, plan demographics, funding policy, etc.). If the actuary concludes that numerical calculations are necessary to assess the risk, the actuary can use various methods to quantify the risk such as scenario tests, sensitivity tests, stress tests, etc.

Some of these risk assessment measures have already been incorporated in the MERS annual valuation reports. For example, the projections of funded percentage and employer contributions shown on the following pages could be used to gauge the risk associated with long term investment rates of return different than the assumed 7.75% annual rate. A history of the municipality's funded percentage as shown in Table 7, could indicate the trend in funded status over time.

### Alternate Scenarios to Estimate the Potential Volatility of Results ("What If Scenarios")

The calculations in this report are based on assumptions about long-term economic and demographic behavior. These assumptions will never materialize in a given year, except by coincidence. Therefore

the results will vary from one year to the next. The volatility of the results depends upon the characteristics of the plan. For example:

- Open divisions that have substantial assets compared to their active employee payroll will have more volatile employer contribution rates due to investment return fluctuations.
- Open divisions that have substantial accrued liability compared to their active employee payroll will have more volatile employer contribution rates due to demographic experience fluctuations.
- Small divisions will have more volatile contribution patterns than larger divisions because statistical fluctuations are relatively larger among small populations.
- Shorter amortization periods result in more volatile contribution patterns.

The analysis in this section is intended to review the potential volatility of the actuarial valuation results. It is important to note that calculations in this report are mathematical estimates based upon assumptions regarding future events, which may or may not materialize. Actuarial calculations can and do vary from one valuation to the next, sometimes significantly depending on the group's size.

Many assumptions are important in determining the required employer contributions. In the table below, we show the impact of varying the Investment Return Assumption. Lower investment returns would result in higher required employer contributions, and vice-versa.

The relative impact of each investment return scenario below will vary from year to year, as the participant demographics change. The impact of each scenario should be analyzed for a given year, not from year to year. The results in the table are based on the December 31, 2017 valuation, and are for the municipality in total, not by division. These results do not reflect a 5-year phase in of the impact of the new actuarial assumptions.

|  | Assumed Future Annual Smoothed Investment Return Assumption |                |            |            |                        |                |    |            |  |  |  |

| Monthly Amortization Payment             | \$  | 69,541         | \$         | 63,082     | \$                     | 56,935         | \$ | 50,290     |  |  |  |
| Total Employer Contribution <sup>2</sup> | \$  | 95,897         | \$         | 82,709     | \$                     | 71,349         | \$ | 60,651     |  |  |  |

<sup>&</sup>lt;sup>1</sup> The Valuation Assets include assets from Surplus divisions, if any.

<sup>&</sup>lt;sup>2</sup> If assets exceed accrued liabilities for a division, the division's amortization payment is negative and is used to reduce the division's employer contribution requirement. If the overfunding credit is larger than the normal cost, the division's full credit is included in the municipality's amortization payment above but the division's total contribution requirement is zero. This can cause the displayed normal cost and amortization payment to not add up to the displayed total employer contribution.

### **Projection Scenarios**

The next two pages show projections of the plan's funded ratio and computed employer contributions under the actuarial assumptions used in the valuation and alternate assumed long-term investment return assumption scenarios. All four projections take into account the past investment losses that will continue to affect the actuarial rate of return in the short term. Under the 7.75% scenarios in the table on the next page, two sets of projections are shown:

- Based on the phase-in over 5 fiscal years (beginning in 2017) of the increased contribution requirements associated with the new actuarial assumptions. This projects your minimum required contribution.
- Based on no phase-in of the increased contribution requirements.

The 7.75% scenarios provide an estimate of computed employer contributions based on current actuarial assumptions, and a projected 7.75% market return. The other two scenarios may be useful if the municipality chooses to budget more conservatively, and make contributions in addition to the minimum requirements. The 6.75% and 5.75% projections provide an indication of the potential required employer contribution if MERS were to realize annual investment returns of 6.75% and 5.75% over the long-term.

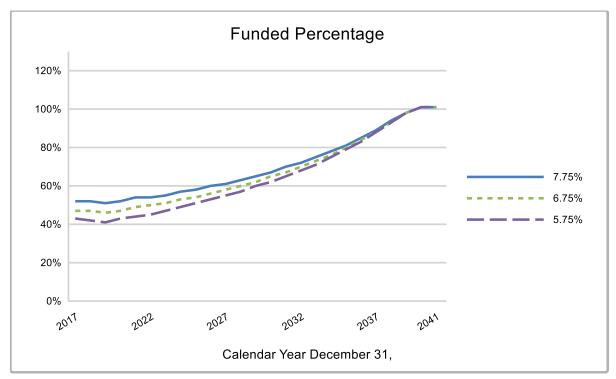

The projections are shown both in tabular and graphical form in total for the employer. The tables show projections for six years. The graphs show projections for twenty five years.

Please note that one or more of your divisions trigger the 3 times benefit payout minimum contribution requirement during the projection period (see table following the projections and the graphs). This contribution requirement was designed so that a plan does not run out of money. This means that if assets in the plan are not enough to pay 3 years of benefit payouts, a minimum contribution is required to raise the level of the assets to be equal to at least 3 years of benefit payments. For a full description of this contribution requirement see the <a href="#expendix">Appendix</a> on the MERS website.

| Estimated Annual Contribution <sup>3</sup> |        |                   | \$ 172,968  |   | 683,220 \$ 856,188 \$ 830,244 | \$ 830,244             |   |                       |                        |

The above employer contribution requirements are in addition to the employee contributions, if any.

For linked divisions, the employer will be invoiced the Computed Employer Contribution with Phase-in rate shown above for each linked division (a contribution rate for the open division), unless the employer elects to contribute the Blended Employer Contribution rate shown above, by contacting MERS at 800-767-MERS (6377). Ω

# Please see the Comments on Asset Smoothing in the Executive Summary of this report.

Page 17 of 58

If employee contributions are increased/decreased by 1.00% of pay, the employer contribution requirement will decrease/increase by the Employee Contribution Factor. The conversion factor is usually under 1%, because employee contributions may be refunded at termination of employment, and not used to fund retirement pensions. Employer contributions will all be used to fund pensions. a

For divisions that are open to new hires, estimated contributions are based on projected fiscal year payroll. Actual contributions will be based on actual reported monthly pays, and will be different from the above amounts. For divisions that will have no new hires (i.e. closed divisions), invoices will be based on the above dollar amounts which are based on projected fiscal year payroll. See description of Open Divisions and Closed Divisions in the Appendix. က

If projected assets exceed projected liabilities as of the beginning of the July 1, 2019 fiscal year, the negative unfunded accrued liability is treated as overfunding credit and is used to reduce the employer contribution rate. Note that if the overfunding credit is larger than the normal cost, the full credit is shown above but the total contribution requirement is zero. This will cause the displayed normal cost and unfunded accrued liability contributions to not add across. 4

| 2013           | 5      |      | 241,671   | \$ 13,495                 | 4.77%             |
|                |        |      |           |                           |                   |
| 2014           | 5      |      | 258,422   | \$ 15,252                 | 4.77%             |
| 2015           | 4      |      | 198,098   | \$ 18,229                 | 4.77%             |
| 2016           | 4      |      | 207,788   | \$ 20,904                 | 4.77%             |
| 2017           | 4      |      | 206,461   | \$ 22,004                 | 4.77%             |

<sup>1</sup> For open divisions, a percent of pay contribution is shown. For closed divisions, a monthly dollar contribution is shown.

**Note:** The contributions shown in Table 9 for the 12/31/2015 through 12/31/2019 valuations do **not** reflect the phase-in of the increased contribution requirements associated with the new actuarial assumptions. The full contribution without phase-in is shown in Table 9 above. The contribution requirements including the 5-year phase-in are shown on page 6.

<sup>&</sup>lt;sup>2</sup> For each valuation year, the computed employer contribution is based on the employee rate. If the employee rate changes during the applicable fiscal year, the computed employer contribution will be adjusted.

## Division 02 - Police and Fire (prior 4/1/95)

#### **GASB 68 Information**

The following information has been prepared to provide some of the information necessary to complete GASB Statement No. 68 disclosures. Statement 68 is effective for fiscal years beginning after June 15, 2014. Additional resources, including an Implementation Guide, are available at <a href="https://www.mersofmich.com">www.mersofmich.com</a>.

| Actuarial Valuation Date:   |    | 12/31/2017     |
|---|----|----------------|
| Measurement Date of Total Pension Liability (TPL):                                |    | 12/31/2017     |
| At 12/31/2017, the following employees were covered by the benefit terms:         |    |                |
| Inactive employees or beneficiaries currently receiving benefits:                 |    | 85             |
| Inactive employees entitled to but not yet receiving benefits:  Active employees: |    | 5<br><u>39</u> |
|   |    | 129            |
| Covered employee payroll: (Needed for Required Supplementary Information)         | \$ | 1,937,933      |
| Average expected remaining service lives of all employees (active and inactive):  |    | 2              |
| Total Danaian Liability as of 19/91/9016 massurament data.                        | \$ | 19,643,760     |
| Total Pension Liability as of 12/31/2016 measurement date:                        | •  | , ,            |
| Total Pension Liability as of 12/31/2017 measurement date:                        | \$ | 19,718,019     |
| Service Cost for the year ending on the 12/31/2017 measurement date:              | \$ | 237,968        |
| Change in the Total Pension Liability due to:                                     |    |                |
| - Benefit changes1:   | \$ | 0              |
| - Differences between expected and actual experience <sup>2</sup> :               | \$ | (203,626)      |
| - Changes in assumptions <sup>2</sup> :   | \$ | 0              |

<sup>&</sup>lt;sup>1</sup> A change in liability due to benefit changes is immediately recognized when calculating pension expense for the year.

Sensitivity of the Net Pension Liability to changes in the discount rate:

1% Decrease Current Discount 1% Increase (7.00%) Rate (8.00%) (9.00%)

Change in Net Pension Liability as of 12/31/2017: \$ 1,971,542 - \$ (1,687,573)

Note: The current discount rate shown for GASB 68 purposes is higher than the MERS assumed rate of return. This is because for GASB 68 purposes, the discount rate must be gross of administrative expenses, whereas for funding purposes it is net of administrative expenses.

<sup>&</sup>lt;sup>2</sup> Changes in liability due to differences between actual and expected experience, and changes in assumptions, are recognized in pension expense over the average remaining service lives of all employees.

## **Benefit Provision History**

The following benefit provision history is provided by MERS. Any corrections to this history or discrepancies between this information and information displayed elsewhere in the valuation report should be reported to MERS. All provisions are listed by date of adoption.

### 01 - General hired prior to 7/1/94

# **Attachment 7a**

#### **System Design Changes**

- 7/1/94 Sick eligibility reduced for new hires from 2,080 hours to 800 hours (AFSCME union and Non-union). See Attachment 7b, page 2.
- 4/1/95 Sick eligibility reduced for new hires from 2,080 hours to 800 hours (Police and Fire union). See Attachment 7b, pages 3 and 4.
- 7/1/06 Sick eligibility reduced for new hires from 800 hours to 0 hours (AFSCME union and Non-union). See Attachment 7c.
- 4/1/12 Multiplier reduced for new hires from 2.5% to 2.25%. Also, FAC for new hires limited to 240 hours of paid leave, no overtime (Police and Fire union). See Attachment 7d.
- 7/1/12 FAC for new hires limited to 240 hours of paid leave, no overtime (AFSCME union and Non-union). See Attachment 7e.
- 7/1/16 Employee contributions for new hires increased from 4.77% to 6% (AFSCME union and Non-union). See Attachment 7f.
- 7/1/17 Multiplier reduced for new hires from 2.25% to 2.0% (AFSCME union and Non-union). See Attachment 7g.

The City analyzed additional system design changes in 2017 with the assistance of Municipal Employees' Retirement System (MERS) including:

- Freezing the current defined benefit plan for all employees and opening a defined contribution plan.
- Closing the current defined benefit plan for new hires and opening a defined contribution plan for new hires.
- Bridging the defined benefit plan for current/future employees (lowering the multiplier).

While both defined contribution options would allow the plan to reach 100% funding sooner, they would require higher annual contributions than our current plan (for a number of years), which would not be financially feasible (see Attachment 7h). The bridging change would certainly reduce our annual contribution, however, we felt that this would negatively affect our ability to attract and retain a talented workforce.

# Attachment 7b MERS Benefit Provision System

## Provisions In Effect As Of 3/8/2018

#### **Employer -- Reporting Unit -- Division Plan**

#### 2706 Ironwood, City of (Active)

Group Life and Disability Voluntary: No

#### CITY OF IRONWOOD'S EMPLOYEE RETIREMENT SYSTEM

Ordinance No 458, Book 4

AN ORDINANCE TO AMEND THE PROVISIONS OF THE CITY OF IRONWOOD GENERAL EMPLOYEES RETIREMENT SYSTEM.

THE CITY OF IRONWOOD ORDAINS:

Section 1. That the City of Ironwood General Employees Retirement System is hereby amended to effectuate the following:

Section 2-107 shall hereby be amended to provide:

For employees hired on or after July 1, 2006, Compensation shall not include lump sum distributions for accumulated sick and vacation pay.

Section 2. If this Ordinance amendment or any portion thereof is held to be invalid by any court of competent jurisdiction, said decision shall not effect the validity of the remaining provisions.

Section 3. This Ordinance shall take effect 4 days from and after the date of its final passage by the City of Ironwood, but the terms thereof shall be effective as of July 1, 2006.

Made and passed by the City of Ironwood, Michigan on this 27th day of November , 2006.

Bruce Noren, Mayor

ATTEST:

Garen M. Gullan, City Clerk

Published in accordance with provisions of Section 6.4, entitled Publications of Ordinances, of Chapter 6 of the Charter for the City of Ironwood, Michigan on the lst day of December , 2006.

| III. Eligible Employees   |    |
|---|----|
| Only those Employees eligible for MERS membership may participate in the MERS Defined Benefit Plan. A copy of ALL employee enrollment forms must be submitted to MERS. The following groups employees are eligible to participate:  | of |
| General after 7/1/16 (AFSCME Union and Non-Union)   |    |
| (Name of Defined Benefit division – e.g. All Full Time Employees, or General after 7/01/13)   |    |
| Only retirees will be in this division.   |    |
| These employees are (check one or both):  |    |
| In a collective bargaining unit (attach cover page, retirement section, signature page)   |    |
| ✓ Subject to the same personnel policy  |    |
| To receive one month of service credit (check one):   |    |
| ☐ An employee shall work 10 hour days.  |    |
| $\bullet$ An employee shall work $\underline{130}$ hours in a month. Regular full time employees only.  |    |
| All employees as classified under eligible employees, whether full or part time, who meet this criteria must be reported to MERS. If you change your current day of work definition to be more restrictive, the new definition only applies to employees hired after the effective date.  |    |
| To further define eligibility, check all that apply:  |    |
| Probationary Periods are allowed in one-month increments, no longer than 12 months. During this introductory period, the Employer will not report or provide service time for this period, including retroactively. Service will begin after the probationary period has been satisfied.  | ng |
| The probationary period will be month(s).   |    |
| ▼ Temporary employees in a position normally requiring less than a total of 12 whole months of work in the position may be excluded from membership. These employees must be notified in writing by the participating municipality that they are excluded from membership within 10 business days of date of hire or execution of this Agreement. | b  |
| The temporary exclusion period will be $\underline{12}$ month(s).   |    |
| IV. Provisions  |    |
| Valuation Date:, 20   |    |
| Review the valuation results  |    |
| It is recommended that your MERS representative presents and explains the valuation results your municipality before adopting. Please choose one:   | to |
| ☐ Our MERS representative presented and explained the valuation results to the  |    |
| — on on  (Board, Finance Cmte, etc.) (mm/dd/yyyy)  ☐ As an authorized representative of this municipality, I  |    |

(Title)

waive the right for a presentation of the results.

| 2. | This Adoption Agreement will be implemented in conjunction with a current actuarial valuation certified by a MERS actuary that sets contribution rates.  |
|----|--|
| 3. | Annually, the MERS actuary will conduct an actuarial valuation to determine the employers' contribution rates. Employers are responsible for payment of said contributions at the rate, in the form and at the time that MERS determines.  |
| 4. | Benefit Multiplier (1%-2.5%, increments of 0.05%) $\frac{2.25}{}$ % (max 80% for multipliers over 2.25%)   |
|    | Check here if multiplier will be effective for existing active members' future service only (Bridged Benefit as of effective date on page 1)   |
|    | If checked, select one below:  |
|    | Termination Final Average Compensation (calculated over the members entire wage history)   |
|    | ☐ Frozen Final Average Compensation (FAC is calculated twice, once for the timeframe that matches the original multiplier, and once for the new multiplier)  |
| 5. | Final Average Compensation (Min 3 yr, increments of 1 yr) 5 years  |
| 6. | Vesting (5 -10 yrs, increments of 1 yr) 10 years   |
| 7. | Required employee contribution (Max 10%, increments of 0.01%) _6 %   |
| 8. | Compensation, for retirement purposes, is defined as base wages and all of the following.  Check applicable boxes to exclude these types from your MERS reported wages:  |

#### V. Appointing MERS as the Plan Administrator

The Employer hereby agrees to the provisions of this *MERS Defined Benefit Plan Adoption Agreement* and appoints MERS as the Plan Administrator pursuant to the terms and conditions of the Plan. The Employer also agrees that in the event any conflict between MERS Plan Document and the MERS Defined Benefit Plan, the provisions of the Plan Document control.

#### VI. Modification Of The Terms Of The Adoption Agreement

If the Employer desires to amend any of its elections contained in this Adoption Agreement, including attachments, the Governing Body or Chief Judge, by resolution or official action accepted by MERS, must adopt a new Adoption Agreement. The amendment of the new Agreement is not effective until approved by MERS.

#### VII. Enforcement

- 1. The Employer acknowledges that the Michigan Constitution of 1963, Article 9, Section 24, provides that accrued financial benefits arising under a public Employer's retirement plan are a contractual obligation of the Employer that may not be diminished or impaired, and prohibits the use of the Employer's required current service funding to finance unfunded accrued liabilities.
- The Employer agrees that, pursuant to the Michigan Constitution, its obligations to pay required contributions are contractual obligations to its employees and to MERS and may be enforced in a court of competent jurisdiction;
- 3. In accordance with the Constitution and this Agreement, if at any time the balance standing to the Employer's credit in the reserve for employer contributions and benefit payments is insufficient to pay all service benefits due and payable to the entity's retirees and beneficiaries, the Employer agrees and covenants to promptly remit to MERS the amount of such deficiency as determined by the Retirement Board within thirty (30) days notice of such deficiency.
- 4. The Employer acknowledges that wage and service reports are due monthly, and the employee contributions (if any) and Employer contributions are due and payable monthly, and must be submitted in accordance with the MERS Enforcement Procedure for Prompt Reporting and Payment, the terms of which are incorporated herein by reference.
- 5. Should the Employer fail to make its required contribution(s) when due, the retirement benefits due and payable by MERS on behalf of the entity to its retirees and beneficiaries may be suspended until the delinquent payment is received by MERS. MERS may implement any applicable interest charges and penalties pursuant to the MERS Enforcement Procedure for Prompt Reporting and Payment and Plan Document Section 79, and take any appropriate legal action, including but not limited to filing a lawsuit and reporting the entity to the Treasurer of the State of Michigan in accordance with MCL 141.1544(d), Section 44 of PA 436 of 2012, as may be amended.
- 6. The Employer acknowledges that changes to the Employer's MERS Defined Benefit Plan must be made in accordance with the MERS Plan Document and applicable law, and agrees that MERS will not administer any such changes unless the MERS Plan Document and applicable law permit same, and MERS is capable of administering same.

| D.          | ☐ If this is to <b>separate employees</b> from an existing Defined Bernumber(s)   | ) into a new division,                |
| E.          | ☐ If this is to merge division(s) into divis the effective date shall be the first of, 20   |                                       |

#### III. Eligible Employees

Only those Employees eligible for MERS membership may participate in the MERS Defined Benefit Plan. A copy of ALL employee enrollment forms must be submitted to MERS. The following groups of employees are eligible to participate:

| General after 7/1/17 (AFSCME Union and Non-Union)  (Name of Defined Benefit division – e.g. All Full Time Employees, or General after 7/01/13)  |
|---|
| ☐ Only retirees will be in this division.   |
| To receive one month of service credit (check one):   |
| ☐ An employee shall work 10 hour days.  |
| An employee shall work 130 hours in a month.  |
| All employees as classified under eligible employees, whether full or part time, who meet this criteria must be reported to MERS. If you change your current day of work definition to be more restrictive, the new definition only applies to employees hired after the effective date.  |
| To further define eligibility, check all that apply:  |
| ☐ <b>Probationary Periods</b> are allowed in one-month increments, no longer than 12 months. During this introductory period, the Employer will not report or provide service time for this period, including retroactively. Service will begin after the probationary period has been satisfied.   |
| The probationary period will be month(s).   |
| Temporary employees in a position normally requiring less than a total of 12 whole months of work in the position may be excluded from membership. These employees must be notified in writing by the participating municipality that they are excluded from membership within 10 business days of date of hire or execution of this Agreement. |
| The temporary exclusion period will be $\underline{12}$ month(s).   |
| Provisions  |
| Valuation Date:, 20   |
| 1. Review the valuation results   |
| It is recommended that your MERS representative presents and explains the valuation results to your municipality before adopting. Please choose one:  |
| Our MERS representative presented and explained the valuation results to the  |
| (Board, Finance Cmte, etc.) on  |
| ☐ As an authorized representative of this municipality, I   |
| (Name)  Waive the right for a presentation of the results.  |

IV.

This Adoption Agreement will be implemented in conjunction with a current actuarial valuation certified by a MERS actuary that sets contribution rates.

Annually, the MERS actuary will conduct an actuarial valuation to determine the employers' contribution rates. Employers are responsible for payment of said contributions at the rate, in the form and at the time that MERS determines.

| 2. |      | refit Multiplier (1%-2.5%, increments of 0.05%) 2.0 % (max 80% for multipliers r 2.25%)   |
|----|------|---|
|    | 7    | Check here if multiplier will be effective for existing active members' future service only (Bridged Benefit as of effective date on page 1)  |
|    |      | If checked, select one below:   |
|    |      | ☐ Termination Final Average Compensation (calculated over the members entire wage history)  |
|    |      | ☐ Frozen Final Average Compensation (FAC is calculated twice, once for the timeframe that matches the original multiplier, and once for the new multiplier)   |
|    |      |   |
| 3. | Fina | al Average Compensation (Min 3 yr, increments of 1 yr) 5 years  |
| 4. | Ves  | ting (5 -10 yrs, increments of 1 yr) $\frac{10}{}$ years  |
| 5. | Rec  | uired employee contribution (Max 10%, increments of 0.01%) 6.00 %   |
| 6. |      | npensation, for retirement purposes, is defined as base wages and all of the following. ck applicable boxes to <i>include</i> these types from your MERS reported wages:  |
|    |      | Covertime pay Shift differentials Pay for periods of absence from work by reason of vacation, holiday, and sickness Workers' compensation weekly benefits (if reported and are higher than regular earnings) A member's pre-tax contributions to a plan established under Section 125 of the IRC Transcript fees paid to a court reporter A taxable car allowance Short term or long term disability payments Payments for achievement of established annual (or similar period) performance goals Payment for attainment of educational degrees from accredited colleges, universities, or for acquisition of job-related certifications Lump sum payments attributable to the member's personal service rendered during the FAC period Other: Paid leave shall be capped at 240 hrs max includible in the FAC |

#### V. Appointing MERS as the Plan Administrator

The Employer hereby agrees to the provisions of this *MERS Defined Benefit Plan Adoption Agreement* and appoints MERS as the Plan Administrator pursuant to the terms and conditions of the Plan. The Employer also agrees that in the event of any conflict between the MERS Plan Document and the MERS Defined Benefit Plan Adoption Agreement, the provisions of the Plan Document control.

#### VI. Modification Of The Terms Of The Adoption Agreement

If the Employer desires to amend any of its elections contained in this Adoption Agreement, including attachments, the Governing Body or Chief Judge, by resolution or official action accepted by MERS, must adopt a new Adoption Agreement. The amendment of the new Agreement is not effective until approved by MERS.

#### VII. Enforcement

- 1. The Employer acknowledges that the Michigan Constitution of 1963, Article 9, Section 24, provides that accrued financial benefits arising under a public Employer's retirement plan are a contractual obligation of the Employer that may not be diminished or impaired, and prohibits the use of the Employer's required current service funding to finance unfunded accrued liabilities.
- 2. The Employer agrees that, pursuant to the Michigan Constitution, its obligations to pay required contributions are contractual obligations to its employees and to MERS and may be enforced in a court of competent jurisdiction;
- 3. In accordance with the Constitution and this Agreement, if at any time the balance standing to the Employer's credit in the reserve for employer contributions and benefit payments is insufficient to pay all service benefits due and payable to the entity's retirees and beneficiaries, the Employer agrees and covenants to promptly remit to MERS the amount of such deficiency as determined by the Retirement Board within thirty (30) days notice of such deficiency.
- 4. The Employer acknowledges that wage and service reports are due monthly, and the employee contributions (if any) and Employer contributions are due and payable monthly, and must be submitted in accordance with the MERS Enforcement Procedure for Prompt Reporting and Payment, the terms of which are incorporated herein by reference.
- 5. Should the Employer fail to make its required contribution(s) when due, the retirement benefits due and payable by MERS on behalf of the entity to its retirees and beneficiaries may be suspended until the delinquent payment is received by MERS. MERS may implement any applicable interest charges and penalties pursuant to the MERS Enforcement Procedure for Prompt Reporting and Payment and Plan Document Section 79, and take any appropriate legal action, including but not limited to filing a lawsuit and reporting the entity to the Treasurer of the State of Michigan in accordance with MCL 141.1544(d), Section 44 of PA 436 of 2012, as may be amended.
- 6. The Employer acknowledges that changes to the Employer's MERS Defined Benefit Plan must be made in accordance with the MERS Plan Document and applicable law, and agrees that MERS will not administer any such changes unless the MERS Plan Document and applicable law permit same, and MERS is capable of administering same.

Notes: Impacts of the new assumptions will be phased in over a five year period by default. The phase-in was excluded for ballpark and comparison purposes.

The amortization schedule used was Option B in Scenario 1 and Option A in Scenario 2. The accelerated amortization schedules (for closed groups) are recommended due to the financial condition and mature demographics of this plan.

The assumed future annual investment return is 7.75%.
