

Washington, D.C. 20505

28 July 2020

Mr. Jack Brewer

Reference: F-2020-01742

Dear Mr. Brewer:

This is a final response to your 7 July 2020 Freedom of Information Act request, received in the office of the Information and Privacy Coordinator on 7 July 2020, for all **files and records referencing or pertaining to G. Stuart Nixon, excluding and as referenced in two CREST documents**. Your request was assigned the reference number above. Please use this number when corresponding so that we can identify it easily.

We conducted a search of our system of previously-released records and located one additional previously-released-in-full document (enclosed).

For any other information regarding the subject of your request, please note that **on the general subject of Unidentified Flying Objects (UFOs), there is no organized CIA effort to do research in connection with UFO phenomena, nor has there been an organized effort to collect intelligence on UFOs since the 1960s**. At that time, the Air Force, specifically the Air Technical Intelligence Center at Wright Patterson Air Force Base, had the primary responsibility for the investigation of all reports of UFO sightings. The CIA's role was in connection with a Scientific Advisory Panel, established to investigate and evaluate reports of UFOs. The panel was concerned only with any aspect of UFO phenomena which might prove to present a potential threat to United States national security. The panel later revealed its findings in the Report of the Scientific Panel on Unidentified Flying Objects dated 17 January 1953, also known as the "Robertson Report." The report was released by the Air Force Office of Public Information on 9 April 1958.

The Air Force UFO investigation program, called Project Bluebook, was terminated in 1969. We understand that the Air Force turned its records on this subject over to the National Archives and Records Administration where they are currently available for inspection and purchase.

Please be advised, the Agency has released to previous requesters numerous pages of UFO-related documents under the FOIA. Most of this material was located as a result of previous searches for records conducted on behalf of earlier requesters for information regarding UFOs. Any releasable material as a result of these earlier, thorough searches is included in this package.

These documents are not indexed, and most of the material deals with matters related to the report by the Scientific Advisory Panel. We should advise you that most of the reports dealing with the UFO sightings considered by the Panel originated with other government agencies such as the Air Force, and that much of the later CIA-originated reports concern sightings as reported in the foreign news media. Also, as a result of former CIA Director James Woolsey's 14 December 1993 radio interview, a further release was made, bringing the total number of released pages to 2,780.

In response to requests for UFO-related documents, we are now providing several options. You may purchase the entire package (in hardcopy), request specific documents from the enclosed listing, or you may purchase the entire package on a CDROM for \$10. Additionally, you may want to visit our frequently requested records page on our website at <https://cia.gov/library/readingroom/collection/ufos-fact-or-fiction>.

If you wish to purchase some or all of the documents from the enclosed listing, please mark the desired documents, and return the entire listing to us. In accordance with our enclosed fee schedule, whatever documents you choose will be charged at a cost of ten cents per page less the first 100 pages to which you are entitled free. Please do not send payment in advance because page counts are not always accurate. We will bill you when we mail you the documents. However, if you opt to purchase the CDROM, please send your check or money order to me for **U.S. \$10**, made payable to the **Treasurer of the United States** citing reference **F-2020-01742** to ensure proper credit to your account.

If you have any questions regarding our response, you may contact the CIA's FOIA Hotline at (703) 613-1287.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Lilly', written in a cursive style.

Mark Lilly
Information and Privacy Coordinator

Enclosures

—Associated Press

UFO THAT BACKFIRED — Five Greenwood, Del., volunteer firemen were charged with disorderly conduct yesterday for hoaxing their community with this

"flying saucer" set up in the woods: Covered with paper and flashing orange lights, it drew alarmed reports until police, guns at the ready, tracked it down.

UFOs

Local 'Sightings'

By John White
Star-News Staff Writer

Reports of unidentified flying objects have increased tenfold since two fishermen in Pascagoula, Miss., claimed last week that they were abducted by three extraterrestrial creatures, according to a group monitoring UFO sightings.

Stuart Nixon, executive director of the Washington-based National Investigations Committee on Aerial Phenomena, said his group has been "literally swamped with calls" since the Mississippi report.

In that incident, the fishermen reported to police that they were taken aboard a fish-shaped blue craft and examined by three reddish-looking creatures with big eyes, pointed ears and wrinkled skin.

NIXON SAID that calls to the NICAP, which reports and publishes information relating to UFO sightings, have been increasing since published accounts in August of "bright-flashing objects" in the skies over Georgia.

NICAP has not found any reports of UFOs in the Washington area that the group does not consider explainable, Nixon said. But the association still is investigating a report by a Waldorf couple, who claim to have witnessed a "group of moving lights heading toward their home and passing out of view" Tuesday night.

During the past week, more than a dozen persons have called the Star-News to report strange objects in the sky.

Mrs. Iverna Christoffers of Takoma Park said that on Sept. 26 she noticed three flashing lights "moving toward a very large whitish light in the sky." She said she made the observation while driving south on Route I-95 just north of the Capital Beltway.

Mrs. Christoffers said the moving lights stayed in view for about four or five minutes. "At first I thought it was a helicopter, but it was making moves that I had never seen a helicopter make," she said.

A POTOMAC MAN told

the newspaper he and several of his neighbors watched blue flashing lights passing across the southern horizon for nearly an hour last night.

Spokesmen for the Air Force and local police said they have had no recent reports of UFOs in the Washington area.

Most of the UFO claims have been in Southern and Midwestern parts of the country.

A spokesman for the Naval Observatory here said there are several astrological explanations for seeing unusual objects in the sky this time of the year, particularly at dawn or twilight.

He noted that the planet Venus is seen in the western sky as a blinking light and that Mars rises shortly after dark as a reddish light on the eastern horizon.

Weather research balloons have prompted new reports of UFOs throughout the South and authorities are bracing for more.

At least two offices of the National Weather Service reported separate launch-

ings of weather balloons yesterday. One was launched at Palestine, Tex., and authorities say it drifted over Mississippi at a constant altitude. The weather service at Montgomery, Ala., also reported launching a balloon to an altitude of about 85,000 feet.

Officials at Eglin Air Force Base, Fla., have announced high atmospheric rocket tests today and tomorrow and cautioned that the rockets could easily be mistaken for UFOs.

Air Force officials said the rockets would release glowing clouds of red, green, blue and yellow gases visible in the South from Texas to Charleston, S.C.

The rockets will be launched at two-hour intervals beginning at 6:30 p.m. EDT today and continuing through Friday night.

None of the major airports in the Washington metropolitan area reported calls coming in inquiring about UFOs, but The Star-News switchboard has received numerous calls reporting "sightings" of UFOs.
